By the year 2137 Europe has become a largely forgotten, savage wilderness. Fierce bands of hunters rove the crumbling ruins of once mighty, war-ravaged cities. On the other side of the Atlantic a prosperous Pan-American Federation has emerged, claiming all lands and seas between the 30th and 175th longitudes and forbidding contact with the rest of the world. All who cross beyond thirty are sentenced to death. Beyond Thirty is the story of Captain Jefferson Turck and the crew of his aero-submarine, who through accident and sabotage are forced beyond the thirtieth longitude and embark on an epic quest to rediscover the legendary lands of the Old World. Their adventures stand as one of Edgar Rice Burroughs's most imaginative and subtly crafted tales. Burroughs wrote the story in 1915 in reaction to the growing horrors of the First World War, and his devastating vision of its consequences provides a haunting and enduring warning for the twenty-first century.

This book is the first comprehensive analysis of the campaign for women's suffrage to appear for over thirty years. It challenges the conventional chronology of the subject by arguing that the Victorian suffragists did not undergo a decline during the 1890s but, on the contrary, had effectively won the argument about votes for women by 1900. This view is supported by evidence of the ineffectiveness of Anti-Suffragism, and especially the difficulties it encountered in trying to reconcile female Antis, who were often feminists, with male Antis, who opposed all forms of emancipation. The author adds a new dimension to the argument by discussing the beneficial impact on the British campaign of women's enfranchisement in New Zealand in 1893, and in Australia in 1902; and he shows how crucial to the shift towards suffragist support in parliament were Conservative moves in favour of suffragism in the 1890s. The March of the Women also offers a fresh evaluation of the Edwardian militant campaign. At grass roots level divisions over tactics mattered less than among the London leadership, and suffragette groups were less rigidly divided. It places the Pankhursts and the WSPU in a fresh light by examining their success in raising funds and in tapping the support of the British Establishment, at the same time attacking it and its values; while at the other end of the spectrum non-militants were making an important contribution to the cause by capitalising on working-class and Labour support for women's suffrage.

In *Estranging the Familiar*, G. Douglas Atkins addresses the often lamented state of scholarly and critical writing as he argues for a criticism that is at once theoretically informed and personal. The revitalized critical writing he advocates may entail--but is not limited to--a return to the essay, the form critical writing once took and the form that is now enjoying a resurgence of popularity and excellence. Atkins contends that to reach a general audience, criticism must move away from the impersonality of modern criticism and contemporary theory without embracing the old-fashioned essay. "The venerable familiar essay may remain the basis," Atkins writes, "but its conventional openness, receptivity, and capaciousness must extend to theory, philosophy, and the candor that seems to mark the tail-end of the twentieth century." In noting the timeliness, if not the necessity, of a return to the essay, Atkins also considers our culture's parallel "return to the personal." When the essay combines good writing with the concerns of the personal, Atkins says, it becomes a form of criticism that is readable, vital, and potentially attractive to a large readership. Atkins hopes critics will tap into the revitalized interest the essay now enjoys without ignoring the considerable insights and advances of contemporary theory. He argues that despite claims to the contrary there is no inherent incompatibility between the essay and modern theory. As Atkins considers various experiments in critical writing from Plato to the present, notably feminist interest in the personal and autobiographical, he contends that these attempts, although undeniably important, fall short of the desired goal when they emphasize the merely expressive and neglect the artful quality good writing can bring to personal criticism. The final third of the book consists of a series of experiments in critical writing that represent the author's own attempts to bridge the gap between theory and popular criticism, between an academic and a general audience. In essays that illustrate the rhetorical power of the form, Atkins describes the reciprocal relationship between his life experience and a reading of *The Odyssey*, explains the role that theory has played in his personal development, and chronicles his attempts to find a voice as a writer.

Women of reproductive age (WRA) are often nutritionally vulnerable because of the physiological demands of pregnancy and lactation. Requirements for most nutrients are higher for pregnant and lactating women than for adult men. The Minimum Dietary Diversity for WRA (MDD-W) indicator is a food-based diversity indicator that has been shown to reflect one key dimension of diet quality: micronutrient adequacy summarized across 11 micronutrients (Martin-Prével et al., 2015). Since the launch of the MDD-W indicator in 2015, new global developments and research conducted in three countries to further determine best practices in the data collection resulted in new information and guidelines. This research was supported by capacity-development activities on the assessment of individual food consumption. This publication is an update to the 2016 FAO/FHI 360 joint publication MDD-W: A Guide to Measurement. It includes guidance on the most accurate and valid methodologies on collecting, analyzing, interpreting, and presenting data on women's dietary diversity, for use in research, impact assessment and large-scale, health and nutrition surveys such as the Demographic Health Survey (DHS), to generate nationally representative data, that are comparable over time and across countries. In addition to supporting the regular collection of high-quality dietary data following standardized methodologies, the publication also aims to promote dialogues on and appropriate application of the data towards informing policy and programming decisions and monitoring and evaluation of nutrition outcomes and

progress at global, regional, and country levels.

What comes to mind when we hear that a friend or colleague is studying unpublished documents in a celebrated author's archive? We might assume that they are reading factual documents or, at the very least, straightforward accounts of the truth about someone or some event. But are they? *Working in Women's Archives* is a collection of essays that poses this question and offers a variety of answers. Any assumption readers may have about the archive as a neutral library space or about the archival document as a simple and pure text is challenged. In essays discussing celebrated Canadian authors such as Marian Engel and L.M. Montgomery, as well as lesser-known writers such as Constance Kerr Sissons and Marie Rose Smith, *Working in Women's Archives* persuades us that our research methods must be revised and refined in order to create a scholarly place for a greater variety of archival subjects and to accurately represent them in current feminist and poststructuralist theories.

David Herbert Lawrence (1885–1930) was an English writer and poet whose work famously examined the results of industrialisation on contemporary society. In his novels and poetry, Lawrence explored a variety of then-controversial issues including sexuality and emotional health, which led many to label his work pornography. Today, he is considered to be one of the most important and influential writers of his generation. Lawrence's 1928 novel "Lady Chatterley's Lover" is the story of the former Constance Reid (Lady Chatterley), a young woman married to an upper-class baronet who was left with lower body paralysis as a result of his participation in the Great War. Both physically and emotionally distant from her husband, Constance begins an extramarital affair with the gamekeeper. Following the Victory of the publisher Penguin Books in an obscenity trial in the United Kingdom, an uncensored version of the book was finally published and gained notoriety due to explicit descriptions of sex and its use of then-unprintable four-letter words. A revolutionary novel and a true classic of English literature, "Lady Chatterley's Lover" would make for a worthy addition to any bookshelf. Read & Co. Classics is proud to be republishing this seminal novel now in a brand new edition complete with a specially-commissioned new biography of the author.

Black Women in Sequence takes readers on a search for women of African descent in comics subculture. From the 1971 appearance of the Skywald Publications character "the Butterfly" - the first Black female superheroine in a comic book - to contemporary comic books, graphic novels, film, manga, and video gaming, a growing number of Black women are becoming producers, viewers, and subjects of sequential art. As the first detailed investigation of Black women's participation in comic art, Black Women in Sequence examines the representation, production, and transnational circulation of women of African descent in the sequential art world. In this groundbreaking study, which includes interviews with artists and writers, Deborah Whaley suggests that the treatment of the Black female subject in sequential art says much about the place of people of African descent in national ideology in the United States and abroad. ? Queer women of color have historically been underrepresented or excluded completely in fiction and comics. When present, they are depicted as "less than" the white, Eurocentric norm. Drawing on semiotics, queer theory, and gender studies, this book addresses the imbalanced representation of queer women of color in graphic narratives and fiction and explores ways of rewriting queer women of color back into the frame. The author interrogates what it means to be "Other" and how "Othering" can be more creatively resisted.

Not knowing why these babies are left to die, the witch Xan finds them and takes them to nearby villages to be raised. To sustain them on this journey, Xan feeds the babies starlight. One year, Xan mistakenly feeds the baby moonlight, which fills the child with magic. Xan decides to raise the girl herself in order to keep those around her safe from her magic. She

Women, Reading, Kroetsch: Telling the Difference is a book of both practical and theoretical criticism. Some chapters are feminist deconstructive readings of a broad range of the writings of contemporary Canadian poet-critic-novelist Robert Kroetsch, from *But We are Exiles* to *Completed Field Notes*. Other chapters self-consciously examine the history and possibility of feminist deconstruction and feminist readings of Kroetsch's writing by analyzing Kroetsch, Derrida, and Freud on subjectivity and sexuality; Neuman, Hutcheon, and van Herk on Kroetsch. As such, the book speaks out of and about a number of contemporary theoretical discourses, including particular positions within Canadian literary criticism, feminism, postmodernism, and poststructuralism. Written by a woman reader whose theoretical and methodological orientations are both feminist and poststructuralist, *Women, Reading, Kroetsch: Telling the Difference* problematizes notions of writing, reading, gender, sexuality, and subjectivity in and through Robert Kroetsch's writings. In this critical study of one writer's work the author also challenges the traditionally subservient relationship of reader to text and so empowers the feminist reader as well as, if not rather than, the male writer.
