Yanni is practically a force of nature. With global sales of over 20 million albums, 35 gold and platinum awards, and a fan base of untold millions in nearly every corner of the world, this self-taught musician and composer has achieved a cult-like following. The Washington Post has called Yanni's career 'a miracle, a lesson in pluck that could be taught in business school, preached from pulpits and woven into bedtime stories.' In this long-awaited memoir, Yanni offers an inside look at his fascinating journey, from his boyhood in Greece, where he taught himself to play piano at the age of six, to his current status as a musical star. His path to success was sometimes rocky. With unprecedented candor, Yanni describes his long struggle to separate himself from the 'New Age' label, his ongoing battles with a music industry bewildered by his work, and the depression that threatened to derail his career. With great affection, he also discusses his long relationship with Linda Evans and shares the lessons about love and truth that he's learned from his father along the way.
