You hear all sorts of things said or implied about adoption. Some information comes from people who know a lot about it, while some comes from people who don't know anything about it but make assumptions anyway. Some comes from people whose experiences have been good; some from those whose experiences have been bad. The result? Enough conflicting information to make your head spin. So when everyone has an opinion and most of the books on the market deal with specific aspects on adoption or particular types of adoptions, where do you turn to for reliable information? Start with *Adoption For Dummies*. The great thing about this guide is that you decide where to start and what to read. It's a reference you can jump into and out of at will. Just head to the table of contents or the index to find the information you want. Each part of *Adoption For Dummies* covers a particular aspect of adoption, including: Answering the basic adoption questions – How much does it cost? Who's involved? How long does it take? What do I need to know that I don't know to ask? And more. Getting started – and figuring out what steps you have to take. Dealing with birthmothers and birthfathers – and why, even though they may not be part of your life, they're still important to you. Confronting the issues adoptive families face – issues from sharing the adoption story with your child, to answering your child's questions about his birthparents, to handling rude family members who treat your child differently than her cousins. Finding help – from books, resources, and support groups. No adoption book – at least no adoption book that you can

carry around without a hydraulic lift – can tell you everything there is to know about adoption. What Adoption For Dummies tells you is what you need to know, all in an easy-to-use reference.

In this intense and “absolutely brilliant thriller” (#1 New York Times bestselling author Brad Thor), a forensic anthropologist sets out to prove that the Shroud of Turin is a fake, but quickly discovers the opposite—and must race to stop the evil forces who want to use traces of blood in the fabric to clone Jesus Christ and bring on the second coming of their own design. Throughout his career, forensic anthropologist and outspoken atheist Dr. Jon Bondurant has investigated many religious artifacts said to be real, but he knows better. Only weak minds rely on such obviously false relics to maintain their silly, pointless faith. So when he is invited by the Vatican to examine the Shroud of Turin, said to be the burial cloth that covered the body of Christ—and the most revered of all Christian artifacts—he is delighted for the opportunity to prove once and for all that the Shroud is a fake. But when he meets Domenika Josef, the beautiful and devout Vatican representative who finds him arrogant and self-important, he realizes his task will not be as straightforward as he once imagined. Domenika believes that the relic is real, and wants nothing more than to rescue the tarnished reputation of the church by announcing the good news. As Bondurant and his team examine every element of the Shroud, he and Domenika begin to see each other in a whole new light. And as the evidence about the origin of this highly contested piece of fabric starts to pile up, he begins to realize that he's been seeing a lot of things incorrectly. But when a sample of the blood from the Shroud—believed to be the real blood of Jesus Christ—vanishes, he realizes his problems are just beginning. The DNA in that sample could have earth-shattering consequences if it falls into the wrong hands. When Domenika vanishes too, Bondurant is caught in a globe-

spanning chase to rescue the woman he loves—and stop the evil forces who have their own motives for bringing on the Second Coming.

Menander (c. 341-291 BC) was the foremost innovator of Greek New Comedy, a dramatic style that moved away from the fantastical to focus upon the problems of ordinary Athenians. This collection contains the full text of 'Old Cantankerous' (Dyskolos), the only surviving complete example of New Comedy, as well as fragments from works including 'The Girl from Samos' and 'The Rape of the Locks', all of which are concerned with domestic catastrophes, the hazards of love and the trials of family life. Written in a poetic style regarded by the ancients as second only to Homer, these polished works - profoundly influential upon both Roman playwrights such as Plautus and Terence, and the wider Western tradition - may be regarded as the first true comedies of manners.

This book is based on an extensive field work in which the author tried to study the customary law of property of an African agrarian tribal community of Ama - also known as Nyima? - of the Nuba Mountains in the northern Sudan. The writer has tried to explain the nature of property holding in the light of the people's philosophy evidenced in their social structure and their traditional beliefs. Special attention is paid to the traditional structure of political leadership in this highly segmented society that was prone not only to inter-tribal wars but was also in a constant 'fission and fusion' among themselves when not at war with other neighboring tribes. In discussing jurisdictional issues, and traditional settlement mechanisms based partly on law and custom, both adopted by this egalitarian society, the study is made currently relevant by keen observation on the effect of modernity on traditional ethics and morality of the Ama society that was once described by some authors as being 'impervious to foreign influence'.

Furthermore, the reception and assimilation of the state law together with the Shari'ah laws in various areas such as that relating to property devolution, family institution, and burial rites is treated as being of great significance in the overall development of the tribal customary laws. Like any other Nuba tribe, the consciousness of the Ama people of their ethos of identity marks their ferociously guarded customs and traditions prevalent up-to-date. The book is not only a precious academic endeavor full of keen observations, in depth study and analysis of tribal customary laws of property; but is also a memoir for the author to commemorate formidable tribal group of the Ama people in the Nuba Mountains of the Sudan.

"A passionate, alive, and original novel about love, race, and jazz in 1920s Harlem and Paris—a moving story of traveling far to find oneself" (David Ebershoff, author of *The Danish Girl* and *The 19th Wife*). On a sweltering summer night in 1925, beauties in beaded dresses mingle with hepcats in dapper suits on the streets of Harlem. The air is thick with reefer smoke, and jazz pours out of speakeasy doorways. Ben Charles and his devoted wife are among the

locals crammed into a basement club to hear music and drink bootleg liquor. For aspiring poet Ben, the heady rhythms are a revelation. So is Baby Back Johnston, an ambitious trumpet player who flashes a devilish grin and blasts dynamite from his horn. Ben finds himself drawn to the trumpeter—and to Paris, where Baby Back says everything is happening. In Paris, black people are welcomed as exotic celebrities, especially those from Harlem. It's an easy life, but it quickly leaves Ben adrift and alone, craving solace through anonymous dalliances in the city's decadent underground scene. From chic Parisian cafés to seedy opium dens, his odyssey will bring new love, trials, and heartache, even as echoes from the past urge him to decide where true fulfillment and inspiration lie. Jazz Moon is an evocative story of emotional and artistic awakening set against the backdrop of the Harlem Renaissance and Jazz Age—Paris—a winner of the Edmund White Award and a finalist for the Lambda Literary Award. “Jazz Moon mashes up essences of Hurston and Hughes and Fitzgerald into a heady mixtape of a romance: driving and rhythmic as an Armstrong Hot Five record, sensuous as the small of a Cotton Club chorus girl's back. I enjoyed it immensely.” —Larry Duplechan, author of *Blackbird* and *Got 'til It's Gone*
