"Epic Negation examines the dialectical turn of modernist poetry over the interwar period, arguing that late modernism inverts the method of Ezra Pound's "poem including history" to conceive a negated mode of epic, predicated on the encryption of disarticulated historical content. Compelled to register the force of a totality it cannot represent, this negated epic reorients the function of poetic language and reference, remaking the poem, and late modernism generally, as a critical instrument of dialectical reason. Part I reads *The Waste Land* alongside the review it prefaced, *The Criterion*, arguing that the poem establishes the editorial method with which T. S. Eliot constructs the review's totalizing account of culture. Dividing the epic's critical function from its style, Eliot not only includes history differently, but also formulates an intricately dialectical account of the interwar crisis of bourgeois culture, formed in the image of a Marxian critique it opposes. Part II turns to the second war's onset, tracing the dislocated formal effects of an epic gone underground. In the elegies and pastorals of W. H. Auden and Louis MacNeice, lyric forms divulge the determining force of unmentionable but universal events, dividing experience against consciousness. With H.D.'s war trilogy, produced in a terse exchange with Freud's *Moses*, even the poetic

image lapses, associating epic with the silent historical force of the unconscious as such"-- Drawing on the disciplines of sociolinguistics, discourse analysis, and cognitive psychology, Elizabeth Minchin studies the speeches that Homer attributes to his characters. She describes how the poet may have used his memory for everyday talk to construct such speeches, and examines how they reflect the speaker's age, status, and gender. Every age that has produced literary epics has also produced variations on the elements that constitute the epic. 'Twentieth-Century Epic Novels' examines the most popular 20th-century manifestations of epic sensibilities by looking closely at five major examples of the 20th-century epic novel. Women, Epic, and Transition in British Romanticism argues that early nineteenth-century women poets contributed some of the most daring work in modernizing the epic genre. The book examines several long poems to provide perspective on women poets working with and against men in related efforts, contributing together to a Romantic movement of large-scale genre revision. Women poets challenged longstanding categorical approaches to gender and nation in the epic tradition, and they raised politically charged questions about women's importance in moments of

historical crisis. While Romantic epics did not all engage in radical questioning or undermining of authority, this study calls attention to some of the more provocative poems in their approach to gender, culture, and history. This study prioritizes long poems written by and about women during the Romantic era, and does so in context with influential epics by male contemporaries. The book takes its cue from a dramatic increase in the publication of epics in the early nineteenth-century. At their most innovative, Romantic epics provoked questions about the construction of ideological meaning and historical memory, and they centralized women's experiences in entirely new ways to reflect on defeat, loss, and inevitable transition. For the first time the epic became an attractive genre for ambitious women poets. The book offers a timely response to recent groundbreaking scholarship on nineteenth-century epic by Herbert Tucker and Simon Dentith, and should be of interest to Romanticists and scholars of 18th- and 19th-century literature and history, gender and genre, and women's studies. This book focuses on the performance of oral epics and explores the significance of performance features for the interpretation of epic poetry. The

leading question of the book is how the socio-cultural context of performance and the various performance elements contribute to the meaning of oral epics. This is a question which not only concerns epics collected from living oral tradition, but which is also of importance for the understanding of the epics of antiquity and the Middle Ages which originated and flourished in an oral milieu. The book is based on fieldwork in the still vibrant oral traditions of the Turkic peoples of Central Asia and Siberia. The discussion combines fieldwork with theory; it is not limited to Turkic epics but branches out into other oral traditions.

A brand new novella from the author of the acclaimed Powder Mage series. Teado is a Changer, a shape-shifting military asset trained to win wars. His platoon has been stationed in the Bavares high plains for years, stranded. As they ration supplies and scan the airwaves for news, any news, their numbers dwindle. He's not sure how much time they have left. Desperate and starving, armed with aging, faulting equipment, the team jumps at the chance for a risky resupply mission, even if it means not all of them might come. What they discover could change the course of the war. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

With the success of *Gladiator*, both critics and scholars enthusiastically announced the return of a genre which had lain dormant for thirty years. However, this return raises important new questions which remain unanswered. Why did the epic come back, and why did it fall out of fashion? Are these the same kinds of epics as the 1950s and 60s, or are

there aesthetic differences? Can we treat Kingdom of Heaven, 300 and Thor indiscriminately as one genre? Are non-Western histories like Hero and Mongol epics, too? Finally, what precisely do we mean when we talk about the return of the epic film, and why are they back? The Return of the Epic Film offers a fresh way of thinking about a body of films which has dominated our screens for a decade. With contributions from top scholars in the field, the collection adopts a range of interdisciplinary perspectives to explore the epic film in the twenty-first century.

This second edition of Approaches to Teaching Milton's Paradise Lost addresses Milton in the light of the digital age, new critical approaches to his poem, and his continued presence in contemporary culture. It aims to help instructors enliven the teaching of Paradise Lost and address the challenges presented to students by the poem-- the early modern syntax and vocabulary, the political and theological contexts, and the abounding classical references. The first part of the volume, "Materials," evaluates the many available editions of the poem, points to relevant reference works, recommends additional reading, and outlines useful audiovisual and online aids for teaching Milton's epic poem. The essays in the second part, "Approaches," are grouped by several themes: literary and historical contexts, characters, poetics, critical approaches, classrooms, and performance. The essays cover epic conventions and literary and biblical allusions, new approaches such as ecocriticism and masculinity studies, and reading Milton on the Web, among other topics.

Joseph Kelley has written a short, accessible, thorough introduction to, and overview of, Christian teaching on death, judgment, hell and heaven, called in theology the four last things. Presented in the popular 101 Questions format, this book shows how these four topics, also referred to as Christian eschatology, have their ancient roots in the sacred books of the Hebrew Scriptures, especially in the later writings known as apocalyptic literature. The New Testament receives and builds upon Jewish thought and piety, finding in Jesus Christ a new revelation about the meaning of death, the nature of judgment, and God's desire that all be saved

considerable cultural influence. *Rethinking India's Oral and Classical Epics* offers an unprecedented exploration into South Asia's regional epic traditions. Using his own fieldwork as a starting point, Alf Hiltebeitel analyzes how the oral tradition of the south Indian cult of the goddess Draupadi and five regional martial oral epics compare with one another and tie in with the Sanskrit epics. Drawing on literary theory and cultural studies, he reveals the shared subtexts of the Draupadi cult Mahabharata and the five oral epics, and shows how the traditional plots are twisted and classical characters reshaped to reflect local history and religion. In doing so, Hiltebeitel sheds new light on the intertwining oral traditions of medieval Rajput military culture, Dalits ("former Untouchables"), and Muslims. Breathtaking in scope, this work is indispensable for those seeking a deeper understanding of South Asia's Hindu and Muslim traditions. This work is the third volume in Hiltebeitel's study of the Draupadi cult. Other volumes include *Mythologies: From Gingee to Kuruksetra* (Volume One), *On Hindu Ritual and the Goddess* (Volume Two), and *Rethinking the Mahabharata* (Volume Four).

This volume is the masterpiece of Chao Gejin, one of the best-known Chinese scholars of Epic studies, representing his most influential works on the change of the nature of the Epic across the twentieth century. The discussion ranges from Homeric and Indo-European epics to renewed discoveries of age-old African and Asian epics. The author details developments in research from Parry and Lord's work on Serbo-Croat oral poetry to his own research on the Mongol heroic epic. The book traces the formation of theoretical systems such as Oral Formulaic Theory, Ethnopoetics and Performance Theory, and ends with the author's explorations of the 20th-century Mongolian bard Arimpil's singing of his native epic poetry. Using methods that previous

In recent decades, the evidence for an oral epic tradition in ancient Greece has grown enormously along with our ever-increasing awareness of worldwide oral traditions. John Foley here examines the artistic implications that oral tradition holds for the understanding of the Iliad and Odyssey in order to establish a context for their original performance and modern-day reception. In *Homer's Traditional Art*, Foley addresses three crucially interlocking areas that lead us to a fuller appreciation of the Homeric poems. He first explores the reality of Homer as their actual author, examining historical and comparative evidence to propose that "Homer" is a legendary and anthropomorphic figure rather than a real-life author. He next presents the poetic tradition as a specialized and highly resonant language bristling with idiomatic implication. Finally, he looks at Homer's overall artistic achievement, showing that it is best evaluated via a poetics aimed specifically at works that emerge from oral tradition. Along the way, Foley offers new perspectives on such topics as characterization and personal interaction in the epics, the nature of Penelope's heroism, the implications of feasting and lament, and the problematic ending of the Odyssey. His comparative references to the South Slavic oral epic open up new vistas on Homer's language, narrative patterning, and identity. *Homer's Traditional Art* represents a disentangling of the interwoven strands of

orality, textuality, and verbal art. It shows how we can learn to appreciate how Homer's art succeeds not in spite of the oral tradition in which it was composed but rather through its unique agency.

Soon after film came into existence, the term epic was used to describe productions that were lengthy, spectacular, live with action, and often filmed in exotic locales with large casts and staggering budgets. The effort and extravagance needed to mount an epic film paid off handsomely at the box office, for the genre became an immediate favorite with audiences. Epic films survived the tribulations of two world wars and the Depression and have retained the basic characteristics of size and glamour for more than a hundred years. Length was, and still is, one of the traits of the epic, though monolithic three- to four-hour spectacles like *Gone with the Wind* (1939) and *Lawrence of Arabia* (1962) have been replaced today by such franchises as the Harry Potter films and the Lord of the Rings trilogy. Although the form has evolved during many decades of existence, its central elements have been retained,

refined, and modernized to suit the tastes of every new generation. The Encyclopedia of Epic Films identifies, describes, and analyzes those films that meet the criteria of the epic—sweeping drama, panoramic landscapes, lengthy adventure sequences, and, in many cases, casts of thousands. This volume looks at the wide variety of epics produced over the last century—from the silent spectacles of D. W. Griffith and biblical melodramas of Cecil B. DeMille to the historical dramas of David Lean and rollercoaster thrillers of Steven Spielberg. Each entry contains: Major personnel behind the camera, including directors and screenwriters Cast and character listings Plot summary Analysis Academy Award wins and nominations DVD and Blu-ray availability Resources for further study This volume also includes appendixes of foreign epics, superhero spectaculars, and epics produced for television, along with a list of all the directors in the book. Despite a lack of overall critical recognition and respect as a genre, the epic remains a favorite of audiences, and this book pays homage to a form of mass entertainment that continues to fill movie theaters. The Encyclopedia of Epic Films will be of interest to academics and scholars, as well as any fan of films made on a grand scale.

An exploration of the way in which early Christians engaged with the Roman intellectual elite and its highly sophisticated Graeco-Roman tradition. Roger Green examines the works of Juvenius, Sedulius, and Arator, and shows how they repackaged the New Testament as epic, to try to make a bridge between two very different cultures.
