The Effective Teaching of Secondary Science encourages the trainee teacher to develop effective skills for teaching science to secondary school pupils. The comprehensive coverage of topics and issues provides good foundations for trainee teachers who are encouraged to test and evaluate different techniques. Practical advice is offered in areas such as lesson planning, the preparation of worksheets, planning practical activities and safety in the laboratory. The book also discusses the use of information technology as well as multicultural and gender issues and the teaching of pupils with special needs. Much of the work covered is underpinned by areas of educational research such as educational theory and psychology and sociology of education. Information on the requirements of the national curriculum and on post-16 science courses is given and includes a number of assessment techniques for the problematic area of assessing science attainment target 1.

This comprehensive book gives an up-to-date profile of all aspects of the care of older people in the community, with particular emphasis on the importance of maintaining function and independence as well as health. In a uniquely broad approach, the book is edited by two family doctors with a particular interest in the elderly and a consultant geriatrician, and the varied subjects are each presented by experts in their field. This accessible book enables primary care teams to produce optimal standards of care in old age, and is helpful in the organization of preventive care programmes. Emphasizing the need for joint working, the book draws together practical knowledge and skills to produce an essential source of reference and advice for all those involved in delivering a co-ordinated service. It is essential reading for all doctors in general practice and in public health, medical students and all other professionals whose work brings them into contact with elderly people. It is particularly useful for general practice teams, allied professionals such as nurses and physiotherapists, as well as patients and carers seeking an understanding of good practice. It also contains much practical information vital to the work of voluntary agencies, social service departments and specialists in geriatric medicine.

Contains 52 brilliant ideas on how you can turn exam worries into exam success.
