From one of Canada's finest writers comes a masterful novel about the clash of art and advertising, the cultish grip of celebrity and the intense connections that can form in times of crisis. An unidentified man storms a television studio where KiddieFame, a controversial children's talent show wherein kids who are too talented are "killed off," is being filmed. He is armed with an explosive device, and issues only a single demand: an interview with journalist Thom Pegg. It's a strange request, everyone agrees. A disgraced former investigative journalist, caught fabricating sources, Pegg is down on his luck and working for a lowly tabloid. The demand surprises everyone – Pegg most of all, and he is reluctant to play a role. But pressure from federal authorities leaves little choice, and so it is that Thom Pegg finds himself the envy of all the high-level journalists on hand as he makes his way into the darkened studio to uncover the truth. Outside, as the hostage taking heads into its third day, enthralled and horrified onlookers watch the drama unfold through a constant stream of media speculation and rumours that race through the crowd. In the throes of this crisis two characters – one running from former glory and the other from corporate burnout – meet and instinctively connect. Eve is an Olympic gold medalist and much-loved local daughter who jogs the city's streets at night and searches for her long-lost brother, Ali, in its shadowy corners. Rabbit is a secretive street artist who is just completing a massive project involving strange installations on the rooftops of hundreds of buildings throughout the city. Both carry the scars of their pasts, and seem to be searching for a way to become whole. It's a fearful time, when people have serious doubts about the future and about each other, yet are compelled to come together to vent their anxiety and make themselves heard. Outside the studio, chaos reigns, and Eve and Rabbit must navigate police checkpoints as they skirt the unruly masses in pursuit of the truth of what happened to Ali. Inside the studio, however, it's all about control, as Pegg listens to the hostage taker's story and begins to realize the terrible, violent truth about what he has planned. When the crisis comes to a head, events collide and riots grip the streets. Prospects seem bleak as the tension of the hostage taking is unleashed upon the city. But when Rabbit's secret installation is finally activated, people are shocked into seeing the power beauty still has in this world, and into recognizing the real possibility of hope. The Blue Light Project is a hard-hitting and emotionally wrought commentary on the forces that attract and repel us, and the faith that enables us to continue, even in our darkest hours.

Features projects that transform paper into handmade cards and decorative pieces for entertaining, holidays, and the home.

The Devenys seemed like a perfect family. Dick and JoAnn were gainfully employed and lived on the shores of Lake Minnetonka, Minnesota, with their two healthy boys. But on July 13th, 1991, they found out that tragedies don't only happen to other people. When Billy, a mischievous eighteen-month-old, slid open the door and ran out of the house, the family's destiny was changed forever. When *Bluebirds Fly: Losing a Child, Living With Hope* begins with a riveting account of the Devenys' journey to their son's deathbed, including actual testimonials from the first responders involved in Billy's rescue attempt. The story unfolds as an in-depth and informative account from both mother's and father's perspectives, and also shares the adversities that often come with a tragedy: alcoholism, gambling addictions, panic attacks, bankruptcy, Tourettes, and the loss and rediscovery of faith. Be inspired. Parents JoAnn and Dick (a skeptic by nature) recount the after-death communications and spiritual visitations from their son, which could not be explained away as coincidence. A must-read for anyone going through a loss, or who would merely enjoy a true story of love, loss, faith, and revelation.

Plugged by no fewer than twenty-five dams, the Colorado is the world's most regulated river drainage, providing most of the water supply of Las Vegas, Tucson, and San Diego, and much of the power and water of Los Angeles and Phoenix, cities that are home to more than 25 million people. If it ceased flowing, the water held in its reservoirs might hold out for three to four years, but after that it would be necessary to abandon most of southern California and Arizona, and much of Colorado, New Mexico, Utah and Wyoming. For the entire American Southwest the Colorado is indeed the river of life, which makes it all the more tragic and ironic that by the time it approaches its final destination, it has been reduced to a shadow upon the sand, its delta dry and deserted, its flow a toxic trickle seeping into the sea. In this remarkable blend of history, science, and personal observation, acclaimed author Wade Davis tells the story of America's Nile, how it once flowed freely and how human intervention has left it near exhaustion, altering the water temperature, volume, local species, and shoreline of the river Theodore Roosevelt once urged us to "leave it as it is." Yet despite a century of human interference, Davis writes, the splendor of the Colorado lives on in the river's remaining wild rapids, quiet pools, and sweeping canyons. The story of the Colorado River is the human quest for progress and its inevitable if unintended effects—and an opportunity to learn from past mistakes and foster the rebirth of America's most iconic waterway. A beautifully told story of historical adventure and natural beauty, *River Notes* is a fascinating journey down the river and through mankind's complicated and destructive relationship with one of its greatest natural resources.

Watch My Back is the story of one man's search for courage. Depressed,

bullied, intimidated by life and indoctrinated to believe that this was his lot, Geoff Thompson, on the verge of a breakdown, decided to fight back. In a bid to confront his fears, he took a job as a bouncer in one of Britain's roughest nightclubs. Over the next ten years, he was involved in hundreds of brutal and bloody fights that left two of his friends murdered and many more in prison; he turned himself into a fearsome fighting machine. Geoff reached the top of his trade and became addicted to violence. Then it all changed. After nearly being killed in a gang attack, and almost killing one of his attackers, he was forced to reassess his relationship with violence. After writing down his experiences, Geoff discovered a flair for writing. This is the story of an ordinary man who faced his fears and took himself from bedsit to best-seller but very nearly got killed on the way. Geoff Thompson is now the author of over thirty books, a stage play and a BAFTA winning short film.

A funny story from the award-winning author/artist of *EVERYONE IS YAWNING!* The sun always comes out tomorrow for the shelter animals Bill Berloni rescues—sometimes from death's door—and then trains to meet the demands of the stage. Berloni was a nineteen-year-old theater apprentice more than three decades ago when he was offered his first big break: find and train a dog to appear in the original production of the Broadway hit *Annie*. Defying the odds, he rescued a down-on-his-luck dog from a local shelter and, together, they redefined what animal performers could do. Since then Berloni and his trainers have

provided animals for hundreds of films, commercials, and television shows as well as live theater, including productions of *The Wizard of Oz* and *Winn-Dixie*, all over North America. In this heartwarming book, he tells the true stories of “throw-away” animals who came back to work with some of entertainment’s biggest names, names like Bernadette Peters, Sarah Jessica Parker, Mike Nichols, the New York City Ballet, and many more. This updated edition includes an account of Berloni’s search for the newest Sandy to star with everyone’s favorite red-headed orphan.

Almost every company wants to grow - at least officially. Shareholders are demanding further growth and no management team would deny that the growth of their company is one of the top issues they are working on every single day. However, there are barriers to growth, and these are not only external barriers. Most often it is not the economy, not the market and not the customer who just "hasn't got it." The main barriers can be discovered inside every company, because growth always comes from within. If the organization is not ready to grow, initiatives to increase market share, to enter new markets, and/or to increase profitability are destined to fail. This book systematically addresses the main internal barriers to growth and provides practical guidance not only for discovering these barriers, but to systematically overcoming them.?

A neuroscientist-turned-FBI-profiler discovers a gene that produces psychopaths in *The Ripper Gene*, a thrilling debut novel from Michael Ransom. Dr. Lucas Madden is a neuroscientist-turned-FBI profiler who first gained global recognition for cloning the ripper gene and showing its dysfunction in the brains of psychopaths. Later, as an FBI profiler, Madden achieved further notoriety by sequencing the DNA of the world's most notorious serial killers and proposing a controversial "damnation algorithm" that could predict serial killer behavior using DNA alone. Now, a new murderer—the Snow White Killer—is terrorizing women in the Mississippi Delta. When Mara Bliss, Madden's former fiancée, is kidnapped, he must track down a killer who is always two steps ahead of him. Only by entering the killer's mind will Madden ultimately understand the twisted and terrifying rationale behind the murders—and have a chance at ending the

psychopath's reign of terror. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

From the bestselling author of *Where the Story Starts* comes a tale about dealing with the past--and finally facing the future. Pip Appleby seems to have it all, with her prestigious job as a human rights lawyer and her enviable London home. But then a tragic accident stops her life in its tracks, and in an instant everything changes. Retreating to her family's rural farm and the humble origins she has been trying to hide, Pip is haunted by what she has done. When she discovers the diary of actress Evelyn Mountcastle in a box of old books, Pip revels in the opportunity to lose herself in someone else's life rather than focus on the disaster that is her own. But soon she sees parallels--Evelyn's life was also beset by tragedy, and, like Pip, she returned to Southwold under a dark cloud. When Pip and Evelyn's paths cross in real life they slowly begin to reveal the hidden stories that are holding them back. Can they help each other forgive what happened in the past and, perhaps, find happiness in the future?

As Sacramento's neighborhoods grew eastward from Fifteenth Street to Thirty-first Street (later Alhambra Boulevard), the area evolved into a complex mix of housing and businesses known as Midtown. Sutter's Fort was still popular, and community groups like the Native Sons of the Golden West restored its last remnants for future generations. In 1927, the city built Memorial Auditorium, a tribute to fallen soldiers, as a large central venue that continues to serve as an important setting for graduations, concerts, and conventions. The J and K Street business corridors expanded from downtown, and identifiable neighborhoods such as Poverty Ridge, Boulevard Park, and New Era Park developed as people settled and established businesses in these growing areas. Today's Midtown supports numerous Victorian mansions and Craftsman bungalows, as well as the legacies of such employers as the California Almond Growers' Exchange, California Packing Corporation, Buffalo Brewery, Sutter Hospital, and the Sacramento Bee newspaper.

The Butterfly Bruises is a collection of poems and stories regarding animals, the ocean, miscommunication, childhood, Northeastern versus Southern American culture, family, nature versus technology, and the imagination of the introvert. In these lyrical texts, a couple sleepwalks together, a therapist is imagined as a snake, a manatee befriends a widow, a ghost haunts an old Charleston home, and New York City becomes its own character. Stepping into these pages brings about new worlds—some full of magic, others full of mystery. *Rewiev Quotes* “Literary readers seeking writings replete with wake-up calls for change will find *The Butterfly Bruises* to be reflective, visionary, and hard to put down.” Diane Donovan of *The Midwest Book Review* “Palmer has her finger on the pulse of emotion; you can feel heartbreak and love in every stanza. A young poet capturing the colorful grace of her generation...” Jasper Soloff, Director and
