

Managing Brand Equity David Aaker Free

In this text an experienced brand manager shows you how to turn your brand from the logo on your letterhead into the driving force behind your company's growth, operational success and long-term profitability. Drawing from methods developed in his consulting and training programmes, Scott Davis provides a thorough grounding in brand strategy.

Drawing from novel theoretical insights in social psychology, cultural psychology, and marketing, Globalization, Culture and Branding provides guidelines for imbuing brands with culturally symbolic meanings that can create deep psychological bonds with multi-cultural consumers.

An expert presents in a compact form the 20 essential principles of branding that will lead to the creation of strong brands.

Adopted internationally by business schools and MBA programmes, The New Strategic Brand Management is simply the reference source for senior strategists, positioning professionals and postgraduate students. Over the years it has not only established a reputation as one of the leading works on brand strategy, but also has become synonymous with the topic itself. Using an array of international case studies, Jean-Noël Kapferer covers all the leading issues faced by brand strategists today. With both gravitas and intelligent insight, the book reveals new thinking on topics such as putting culture and content into brands, the impact of private labels and the comeback of local brands. This updated fifth edition of The New Strategic Brand Management builds on its impressive reputation, including new information to enable students and practitioners to stay up to date with targeting, adding recent research and market knowledge to the discipline. With dedicated sections for specific types of brands (luxury, corporate and retail), international examples and case studies from companies such as Audi, Nivea, Toyota and Absolut Vodka; plus models and frameworks such as the Brand Identity Prism; it remains at the forefront of strategic brand thinking.

Stories are orders of magnitude which are more effective than facts at achieving attention, persuading, being remembered, and inspiring involvement. Signature stories—intriguing, authentic, and involving narratives—apply the power of stories to communicate a strategic message. Marketing professionals, coping with the digital revolution and the need to have their strategic message heard internally and externally, are realizing that a digital strategy revolves around content and that content is stories. Creating Signature Stories shows organizations how to introduce storytelling into their strategic messaging, and guides organizations to find, or even create, signature stories and leverage them over time. With case studies built into every chapter, organizations will realize the power of storytelling to energize readers, gain visibility, persuade audiences, and inspire action.

This book is meant to inspire you to live happily. To live out your greatest dreams and let you know that you can become anything your heart desires. To make you aware of the things that hold people back from receiving all their hearts desires. This book is not intended to be made into a religion or to have anyone join a cult, or to take anything away from any religion or cult. I do not want to be worshipped by anyone. Do not judge this book by other books. It is not written like other books. You will not get caught up in me trying to tell you what to think. This is just something I want to share with everyone, my thoughts towards life. It is intended to liberate minds so that they may be open to receive all boundless possibilities. If you give this book a chance, it may also enlighten you.

The most important assets of any business are intangible: its company name, brands, symbols, and slogans, and their underlying associations, perceived quality, name awareness, customer base, and proprietary resources such as patents, trademarks, and channel relationships. These assets, which comprise brand equity, are a primary source of competitive advantage and future earnings. Few people understand brand equity and how it must be implemented. Provides a clear and well-defined structure of the relationship between a brand and its symbol and slogan, as well as each of the five underlying assets, which clarifies exactly how brand equity does contribute value. Illustrated.

Attempts to explain how it is possible that, although the same idea travels around the globe at a high speed, local realities are still very different. This book shows what is travelling; and how it moves between countries and disciplines. Its frame of reference consists of a combination of organization theory, institutionalism and sociology.

Branding guru Aaker shows how to eliminate the competition and become the lead brand in your market This ground-breaking book defines the concept of brand relevance using dozens of case studies-Prius, Whole Foods, Westin, iPad and more-and explains how brand relevance drives market dynamics, which generates opportunities for your brand and threats for the competition. Aaker reveals how these companies have made other brands in their categories irrelevant. Key points: When managing a new category of product, treat it as if it were a brand; By failing to produce what customers want or losing momentum and visibility, your brand becomes irrelevant; and create barriers to competitors by supporting innovation at every level of the organization. Using dozens of case studies, shows how to create or dominate new categories or subcategories, making competitors irrelevant Shows how to manage the new category or subcategory as if it were a brand and how to create barriers to competitors Describes the threat of becoming irrelevant by failing to make what customer are buying or losing energy David Aaker, the author of four brand books, has been called the father of branding This book offers insight for creating and/or owning a new business arena. Instead of being the best, the goal is to be the only brand around-making competitors irrelevant.

This book bridges the gap between strengthening the 'employee brand' and the building 'external brand image' by synthesizing the two approaches. The result is a blurring of the boundaries and assigning creative powers to both. A customer has a number of interactions with the company, and each of these interactions has an impact on the brand equity account – either positive or negative. Examples of interactions include: the product itself, the purchasing process, the consumption experience, the 'face' of the organization, the call center, media etc. The real issue for the company is how to translate the optimized 'ideal' customer journey into effective company programmes, how to track their progress and their actual impact on brand equity, customer satisfaction and loyalty. This book takes a holistic view to brand management and distills this complex system into palatable chunks, involving all functions of the company. The book demonstrates the effect of an organization that facilitates and rewards employee brand commitment on 'external brand equity (eg: customer satisfaction and loyalty) and 'internal brand equity' (eg: product improvement and innovation potential resident in the organization). While the more obvious benefits of this approach include the usual suspects such as increased sales and revenues, less obvious benefits include employee stress reduction through the elimination of tensions and incongruity between external and internal value systems. The result is a significant contribution to creativity, brand commitment, overall employee satisfaction and, finally, a company's ability to attract and retain talent. The above is achieved via a very practical, step-by-step guide, lavishly illustrated with case studies from over 100 fascinating brands (the authors have researched and surveyed companies such as: Aer Lingus, BMW, BP, Deutsche Bank, Ducati, Edun, Google, innocent drinks, Lacoste, Lego, Manner, Maggi, Orange, Old Mutual, Rabobank, Sony, SOS Childrens Villages, Siemens, Thomas Sabo, TED/United, TUI, UBS,

Vauxhall, Wal-Mart, Wikimedia, any many more) the authors are able to paint a very real picture of the issues facing business and provide powerful solutions. Refreshingly, this book draws on examples from across the globe, giving the book cultural depth. Each case helps demonstrate the arguments put forward by the authors. After reading this book the audience should be able to answer the following questions: How can I build a strong brand? Where do I start? Which analyses do I have to conduct? Who needs to be involved? How can I make sure every part of the organisation lives the brand? How can I revive the brand? How can I create a new and relevant connection between the brand and key target audiences? How can I develop and expand the brand? How can future orientation become part of the brand? How can I best structure the brand portfolio? Which role should each of the brands adapt in order to optimise results? How do I best manage the brand? How do I cultivate and empower brand enthusiasts in the organisation? How do I foster and leverage networked collaboration?

Incorporating developments from both academia and industry, this exploration of brands, brand equity and strategic brand management combines a theoretical foundation with numerous techniques and practical insights. Suitable for both graduates and upper-level undergraduates.

"Unquestionably the most comprehensive treatment available on the subject. I found this book unique in its capacity to benefit executives, planning staff, and students of strategy alike."

—Robert L. Joss, Dean of the Graduate School of Business, Stanford University A successful business strategy enables managers to provide organizational vision, monitor and understand a dynamic business environment, generate creative strategic options in response to environmental changes, and base every business effort on sustainable competitive advantages. Developing Business Strategies provides the knowledge and understanding needed to generate and implement such a strategy. This fully revised and updated edition of David Aaker's highly influential strategic manual offers copious new information on important emerging business topics. Numerous new and revised sections cover such critical areas as the big idea, knowledge management, the customer as an active partner, creative thinking, distinguishing fads from trends, forecasting technologies, alliances, design as strategy, downstream business models, and more. Other important new features of this comprehensive guide include: A new chapter on strategic positioning Many new illustrative examples from B-to-B, high-tech, and the Internet Increased focus on global leadership and global brand management Using the Internet to develop and support business strategies For managers who need to develop and implement effective, responsive business strategies that keep the organization competitive through changing business conditions, Developing Business Strategies, Sixth Edition is the way to go.

The text is a European adaptation of our current US book: Strategic Market Management, 9th Edition by David Aaker. This new edition is a mainstream text suitable for all business students studying strategy and marketing courses. Strategic Market Management: Global Perspectives is motivated by the strategic challenges created by the dynamic nature of markets. The premise is that all traditional strategic management tools either do not apply or need to be adapted to a more dynamic context. The unique aspects of the book are its inclusion of: A business strategy definition that includes product/market scope, value proposition, and assets and competences. A structured strategic analysis including a detailed customer, competitor, market, and environmental analysis leading to an understanding of market dynamics that is supported by a summary flow diagram, a set of agendas to help start the process, and a set of planning forms. Concepts of strategic commitment, opportunism, and adaptability and how they can and should be blended together. Bases of a value proposition and strong brands. A strategy without a compelling value proposition will not be market driven or successful. Brand assets that will support a business strategy need to be developed. Creating synergistic marketing with silo organisations defined by products or countries. All organisations have multiple products and markets and creating cooperation and communication instead of competition and isolation is becoming an imperative. A global perspective is an essential aspect of this new edition. This reflects the lived experience of the student reader but also their likely professional challenges. This is achieved by the extensive use of new examples and vignettes.

The most important assets of any business are intangible: its company name, brands, symbols, and slogans, and their underlying associations, perceived quality, name awareness, customer base, and proprietary resources such as patents, trademarks, and channel relationships. These assets, which comprise brand equity, are a primary source of competitive advantage and future earnings, contends David Aaker, a national authority on branding. Yet, research shows that managers cannot identify with confidence their brand associations, levels of consumer awareness, or degree of customer loyalty. Moreover in the last decade, managers desperate for short-term financial results have often unwittingly damaged their brands through price promotions and unwise brand extensions, causing irreversible deterioration of the value of the brand name. Although several companies, such as Canada Dry and Colgate-Palmolive, have recently created an equity management position to be guardian of the value of brand names, far too few managers, Aaker concludes, really understand the concept of brand equity and how it must be implemented. In a fascinating and insightful examination of the phenomenon of brand equity, Aaker provides a clear and well-defined structure of the relationship between a brand and its symbol and slogan, as well as each of the five underlying assets, which will clarify for managers exactly how brand equity does contribute value. The author opens each chapter with a historical analysis of either the success or failure of a particular company's attempt at building brand equity: the fascinating Ivory soap story; the transformation of Datsun to Nissan; the decline of Schlitz beer; the making of the Ford Taurus; and others. Finally, citing examples from many other companies, Aaker shows how to avoid the temptation to place short-term performance before the health of the brand and, instead, to manage brands strategically by creating, developing, and exploiting each of the five assets in turn

Powerful product, country, and functional silos are jeopardizing companies' marketing efforts. Because of silos, firms misallocate resources, send inconsistent messages to the marketplace, and fail to leverage scale economies and successes - all of which can threaten a company's survival. As David Aaker shows in *Spanning Silos*, the unfettered decentralization that produces silos is no longer feasible in today's marketplace. It's up to chief marketing officers to break down silo walls to foster cooperation and synergy. This isn't easy: silo teams guard their autonomy vigorously. As proof of their power, consider the fact that the average CMO tenure is just twenty-three months. In this age of dynamic markets, new media, and globalization, getting the different parts of your organization to collaborate is more critical - and more difficult - than ever. This book gives you the road map you need to accomplish that feat.

World-class branding for the interconnected modern marketplace Kellogg on Branding in a Hyper-Connected World offers authoritative guidance on building new brands, revitalizing existing brands, and managing brand portfolios in the rapidly-evolving modern marketplace. Integrating academic theories with practical experience, this book covers fundamental branding concepts, strategies, and effective implementation techniques as applied to today's consumer, today's competition, and the wealth of media at your disposal. In-depth discussion highlights the field's

ever-increasing connectivity, with practical guidance on brand design and storytelling, social media marketing, branding in the service sector, monitoring brand health, and more. Authored by faculty at the world's most respected school of management and marketing, this invaluable resource includes expert contributions on the financial value of brands, internal branding, building global brands, and other critical topics that play a central role in real-world branding and marketing scenarios. Creating a brand—and steering it in the right direction—is a multi-layered process involving extensive research and inter-departmental cooperation. From finding the right brand name and developing a cohesive storyline to designing effective advertising, expanding reach, maintaining momentum, and beyond, Kellogg on Branding in a Hyper-Connected World arms you with the knowledge and skills to: Apply cutting-edge techniques for brand design, brand positioning, market-specific branding, and more Adopt successful strategies from development to launch to leveraging Build brand-driven organizations and reinforce brand culture both internally and throughout the global marketplace Increase brand value and use brand positioning to build a mega-brand In today's challenging and complex marketplace, effective branding has become a central component of success. Kellogg on Branding in a Hyper-Connected World is a dynamic, authoritative resource for practitioners looking to solve branding dilemmas and seize great opportunities.

Loyalty is one of the main assets of a brand. In today's markets, achieving and maintaining loyal customers has become an increasingly complex challenge for brands due to the widespread acceptance and adoption of diverse technologies by which customers communicate with brands. Customers use different channels (physical, web, apps, social media) to seek information about a brand, communicate with it, chat about the brand and purchase its products. Firms are thus continuously changing and adapting their processes to provide customers with agile communication channels and coherent, integrated brand experiences through the different channels in which customers are present. In this context, understanding how brand management can improve value co-creation and multichannel experience—among other issues—and contribute to improving a brand's portfolio of loyal customers constitutes an area of special interest for academics and marketing professionals. This Special Issue explores new areas of customer loyalty and brand management, providing new insights into the field. Both concepts have evolved over the last decade to encompass such concepts and practices as brand image, experiences, multichannel context, multimedia platforms and value co-creation, as well as relational variables such as trust, engagement and identification (among others).

A revised new edition of the bestselling toolkit for creating, building, and maintaining a strong brand From research and analysis through brand strategy, design development through application design, and identity standards through launch and governance, Designing Brand Identity, Fourth Edition offers brand managers, marketers, and designers a proven, universal five-phase process for creating and implementing effective brand identity. Enriched by new case studies showcasing successful world-class brands, this Fourth Edition brings readers up to date with a detailed look at the latest trends in branding, including social networks, mobile devices, global markets, apps, video, and virtual brands. Features more than 30 all-new case studies showing best practices and world-class Updated to include more than 35 percent new material Offers a proven, universal five-phase process and methodology for creating and implementing effective brand identity

Management fads come and go in the blink of an eye, but branding is here to stay. Closely watched by the stock market and obsessed over by the biggest companies, brand identity is the one indisputable source of sustainable competitive advantage, the vital key to customer loyalty. David Aaker is widely recognised as the leading expert in this burgeoning field. Now he prepares managers for the next wave of the brand revolution. With coauthor Erich Joachimsthaler, Aaker takes brand management to the next level - strategic brand leadership. Required reading for every marketing manager is the authors' conceptualisation of 'brand architecture' - how multiple brands relate to each other - and their insights on the hot new area of Internet branding. Full of impeccable, intelligent guidance, BRAND LEADERSHIP is the visionary key to business success in the future. Finely focused on the "how to" and "why" throughout, this strategy guide provides specific tactical guidelines for planning, building, measuring, and managing brand equity. This approach considers why brands are important, what they represent to consumers, and what should be done by firms to manage them properly.

David Aaker has become the guru of brand strategy with his impact research, twelve books, hundred-plus articles, consulting, and speaking. From Fargo to the World of Brands details the intellectual journey that led to a focus on brands--with stops in marketing models, market research, advertising management, emotional advertising, and business strategy--and chronicles his attempts to influence management practices. It provides a profile of academic life, the story of a brand consulting company, and a description of the rich experience associated with his second professional home in Japan. This warmhearted autobiography also describes Aaker's personal life--growing up in the Midwest in the '40s and '50s, his roots, how a Fargo boy over his head survived at MIT and Stanford, his entrepreneurial failure, his passions and relationships, and how the Aaker family evolved over forty years.

By the time we die, we will have spent an estimated one and a half years just watching TV commercials. Advertising is an established and ever-present force and yet, as we move into the new century, just how it works continues to be something of a mystery. In this 3rd international edition of Advertising and the Mind of the Consumer, renowned market researcher and psychologist Max Sutherland reveals the secrets of successful campaigns over a wide range of media, including the web and new media. Using many well-known international ads as examples, this book takes us into the mind of the consumer to explain how advertising messages work - or misfire - and why. Advertising and the Mind of the Consumer is not just a 'how to' book of tricks for advertisers, it is a book for everyone who wants to know how advertising works and why it influences us-for people in business with products and services to sell, for advertising agents, marketers, as well as for students of advertising and consumer behaviour. 'Essential reading for all practitioners and everyone interested in how advertising works .' - John Zeigler, DDB Worldwide. 'Finally, a book that evades the 'magic' of advertising and pins down the

psychological factors that make an ad successful or not. It will change the way you advertise and see ads.' - Ignacio Oreamuno, President, ihaveanidea.org '. reveals the secrets of effective advertising gleamed from years of sophisticated advertising research. It should be on every manager's bookshelf.' - Lawrence Ang, Senior Lecturer in Management, Macquarie Graduate School of Management 'Breakthrough thinking. I have been consulting in the advertising business and have taught graduate level advertising courses for over 20 years. I have never found a book that brought so much insight to the advertising issues associated with effective selling.' - Professor Larry Chiagouris, Pace University 'Puts the psyche of advertising on the analyst's couch to reveal the sometimes surprising mind of commercial persuasion.' - Jim Spaeth, Former President, Advertising Research Foundation

In this long-awaited book from the world's premier brand expert and author of the seminal work *Building Strong Brands*, David Aaker shows managers how to construct a brand portfolio strategy that will support a company's business strategy and create relevance, differentiation, energy, leverage, and clarity. Building on case studies of world-class brands such as Dell, Disney, Microsoft, Sony, Dove, Intel, CitiGroup, and PowerBar, Aaker demonstrates how powerful, cohesive brand strategies have enabled managers to revitalize brands, support business growth, and create discipline in confused, bloated portfolios of master brands, subbrands, endorser brands, cobrands, and brand extensions. Renowned brand guru Aaker demonstrates that assuring that each brand in the portfolio has a clear role and actively reinforces and supports the other portfolio brands will profoundly affect the firm's profitability. *Brand Portfolio Strategy* is required reading not only for brand managers but for all managers with bottom-line responsibility to their shareholders.

Why do consumers pay a premium for a Dell or Hewlett-Packard laptop, when they could get a generic machine with similar features for a lower price? The answer lies in the power of branding. A brand is not just a logo. It is the image your company creates of itself, from your advertising look to your customer interaction style. It makes a promise for your business, and that promise becomes the sticking point for customer loyalty. And that loyalty and trust is why, so to speak, your laptops sell and your competitors' don't. Whatever your business is, whether it's large or small, global or local, *Branding For Dummies* gives you the nuts and bolts know-how to create, improve, or maintain a brand. This plain-English guide will help you brand everything from products to services to individuals. It gives you step-by-step advice on assembling a top-notch branding team, positioning your brand, handling advertising and promotion, avoiding blunders, and keeping your brand viable, visible, and healthy. You'll get familiar with branding essentials like: Defining your company's identity Developing logos and taglines Launching your brand marketing plan Managing and protecting your brand Fixing a broken brand Making customers loyal brand champions Filled with easy-to-navigate icons, charts, figures, top ten lists, and humor, *Branding For Dummies* is the straight-up, jargon-free resource for making your brand stand out from the pack—and for positioning your business to reap the ensuing rewards.

Strategic Market Management, helps managers identify, implement, prioritize, and adapt market-driven business strategies in dynamic markets. The text provides decision makers with concepts, methods, and procedures by which they can improve the quality of their strategic decision-making. The 11th Edition provides students in strategic marketing, policy, planning, and entrepreneurship courses with the critical knowledge and skills for successful market management, including strategic analysis, innovation, working across business units, and developing sustainable advantages.

With key terms and concepts related to marketing ethics presented in a short, easy-to-use format, this guide is an essential companion for marketing courses or as a reference for students and practitioners who would like to learn more about the basics of ethical marketing. The text is divided into four sections which contain important keywords that relate to those sections: Business Ethics, Ethics and the Marketing Mix, Ethics and the Promotional Mix, and Special Topics in Marketing Ethics. Each keyword entry is written by a scholar drawn from the fields of business and marketing ethics, and is a comprehensive essay on such crucial topics as ethical issues in pricing, green marketing, and deceptive advertising. Each essay includes a list of references and suggested readings for each article so that readers can find more information on those issues they are most interested in.

Increasing pressures to produce new products faster and cheaper are resulting in huge efforts to streamline and restructure the traditional new product development (NPD) process. The purpose of the book is to describe, assess and apply the latest constructs, methods, techniques and processes to enable managers, professionals, and practitioners to be more effective in designing, developing and commercializing new products and services. It provides guidance and support in formulating and executing NPD programs for business practitioners and MBA students. The book is written from an Integrated Product Development (IPD) perspective, linking all aspects of marketing, costing and manufacturing into the development process even before the first prototype is built. It covers the advanced tools necessary to achieve this such as virtual prototyping and fully integrated business systems, and explains the changes needed to organizational structure and thinking.

The tenth annual Advertising and Consumer Psychology Conference held in San Francisco focused on branding -- a subject generating intense interest both in academia and in the "real world." The principle theory behind these conferences is that much can be gained by joining advertising and marketing professionals with academic researchers in advertising. Professionals can gain insight into the new theories, measurement tools and empirical findings that are emerging, while academics are stimulated by the insights and experience that professionals describe and the research questions that they pose. This book consists of papers delivered by experts from academia and industry discussing issues regarding the role of advertising in the establishment and maintenance of brand equity -- making this volume of interest to advertising and marketing specialists, as well as consumer and social psychologists.

The must-read summary of David Aaker's book: "*Building Strong Brands: How the Best Brand Managers Build Brand Equity*". This summary of the ideas from David Aaker's book "*Build Strong Brands*" shows that a strong brand creates customer interest and loyalty, and can be an organization's most valuable strategic asset. In fact, brand equity is historical – the current brand image is derived from actions previously taken. Therefore, the process of adding value to a brand so that it has greater equity in the future is termed a brand identity program. Through the integration of additional product attributes, organizational attributes, personality characteristics and visual imagery, including symbols, the brand identity program adds value to the brand in the future. In essence this summary highlights that a strong brand is the strategic asset which holds the key to the long-term performance of any organization; any initiative focused on building the value of the brand is integral to the long-term viability of the organization itself. Added-value of this summary: • Save time • Understand the key concepts • Increase your business knowledge To learn more, read "*Building Strong Brands*" and discover a useful book to

develop successful organizations.

Most of us have an intuitive sense of superior branding. We prefer to purchase brands we find distinctive—that deliver on some important, relevant dimension better than other brands. These brands have typically achieved positional advantage. Yet few professionals have had the formal training that goes beyond marketing theory to bridge the “theory-doing gap”—understanding the specific techniques and strategies that can be used to create brands that attain positional advantage in the marketplace. Positioning for Advantage is a comprehensive how-to guide for creating, building, and executing effective brand strategies. Kimberly A. Whitler identifies essential marketing strategy techniques and moves through the major stages of positioning a brand to achieve in-market advantage. Introducing seven tools—from strategic positioning concepts to strategy mapping to influencer maps—Whitler provides templates, frameworks, and step-by-step processes to build and manage growth brands that achieve positional advantage. This book presents real-world scenarios, helping readers activate tools to increase skill in creating brands that achieve positional advantage. Brimming with insights for students and professionals alike, Positioning for Advantage helps aspiring C-level leaders understand not only what superior branding looks like but also how to make it come to life.

Owning Game-Changing Subcategories is about creating organizational growth in the digital age by creating and owning game-changing subcategories fueled by digital. Owning Game-Changing Subcategories outlines the path to finding, managing, and leveraging new subcategories. In the digital age, the path has been made wider, shorter, and more frequently traveled. Throughout Owning Game-Changing Subcategories, David Aaker discusses certain aspects of the digital age that alter this path, such as E-commerce providing fast, inexpensive market access bypassing the cost of gaining distribution into storefront retailers or creating personal sales teams and social media and websites enabling communication on steroids in comparison with traditional use of advertising or events. Growth is not only a success measure but also creates energy and opportunity for customers and employees. And such growth almost never occurs with “my brand is better than your brand” marketing. Owning Game-Changing Subcategories explores the only ways to grow a business (with rare exceptions) which is to: develop new “must haves” that define a game-changing subcategory that provides a new or markedly superior buying or use experience or brand relationship to a core customer base; become the exemplar brand that represents the subcategory and drives its visibility, positioning, and success; and create barriers to competitors that could include “must-have” associations and a basis of relationships that go beyond functional benefits.

Introducing a new workbook Scale-Up Your Brand: How To Set Up Your Brand for Success in 5 Steps from Denise Lee Yohn, brand-building expert, speaker, and author of the bestselling book What Great Brands Do. Scale-Up Your Brand is a step-by-step guide to develop a strong, valuable, sustainable brand strategy that will help you scale. Praise for 60-Minute Brand Strategist "A fresh take on the wisdom of putting brand strategy at the heart of corporate strategy. Brilliant insights for a fast-moving world." —Angela Ahrendts, CEO, Burberry "Idris Mootee paints a sharp, comprehensive, and finely articulated analysis of the potential of meaningful brands in the 21st century's cultural scenario and business landscape. The result is a smart manual that reminds you and your company how to build relevant, authentic, sustainable, and successful brands in an evolving society." —Mauro Porcini, Chief Design Officer, PepsiCo Inc. "Idris's book teaches us how to engage today's increasingly cynical consumers on a deeper emotional level to build real equity and leadership. He demonstrates how to break out of the box and connect business strategy to brand strategy, and how the right brand story never really ends!" —Blair Christie, SVP and CMO, Cisco Systems, Inc. "It's rare to find a book that's both inspiring and practical but Idris nailed it! He has crafted the ultimate guide to brand building in the connected world with visual clarity and thought-provoking strategy." —Eric Ryan, cofounder, Method Products, Inc. This book is about one thing only: branding. Period. In this economy ruled by ideas, the only sustainable form of leadership is brand leadership. 60-Minute Brand Strategist offers a fast-paced, field-tested view of how branding decisions happen in the context of business strategy, not just in marketing communications. With a combination of perspectives from business strategy, customer experience, and even anthropology, this new and updated edition outlines the challenges traditional branding faces in a hyper-connected world. This essential handbook of brand marketing offers an encyclopedia of do's and don'ts, including new case studies of how these concepts are being used by the world's most successful and valuable brands. 60-Minute Brand Strategist is your battle plan, filled with powerful branding tools and techniques to win your customers' hearts and defeat the competition.

Capture their attention-and keep it! With the rise of digital media, you'd think it would be easier than ever to be heard. Yet, most messages fail to cut through the clutter.

Consumers are overwhelmed. Ads alone aren't effective. And you can't just churn out content and connect on every social network. To stand out today, you need to start with your brand. Brand Now uncovers the new rules of branding in our complex and chaotic world. Written by the author of Get Scrappy, the digital marketing bible for business, this latest book explains how to build brands that resonate both online and off. The book helps you: Create a brand with meaning * Reinforce it with the right touchpoints * Hone your brand's unique story * Share it through engaging content * Cultivate a sense of community * Craft a coherent experience * Stand out with simplicity and transparency The world may be growing louder, but with Brand Now's big ideas and practical toolbox, you can break through the noise-and win a place in the hearts and minds of your customers.

As industries turn increasingly hostile, it is clear that strong brand-building skills are needed to survive and prosper. In David Aaker's pathbreaking book, MANAGING BRAND EQUITY, managers discovered the value of a brand as a strategic asset and a company's primary source of competitive advantage. Now, in this compelling new work, Aaker uses real brand-building cases from Saturn, General Electric, Kodak, Healthy Choice, McDonald's, and others to demonstrate how strong brands have been created and managed. A common pitfall of brand strategists is to focus on brand attributes. Aaker shows how to break out of the box by considering emotional and self-expressive benefits and by introducing the brand-as-person, brand-as-organisation, and brand-as-symbol perspectives. A second pitfall is to ignore the fact that individual brands are part of a larger system consisting of many intertwined and overlapping brands and subbrands. Aaker shows how to manage the "brand system" to achieve clarity and synergy, to adapt to a changing environment, and to leverage brand assets into new markets and products. As executives in a wide range of industries seek to prevent their products and services from

becoming commodities, they are recommitting themselves to brands as a foundation of business strategy. This new work will be essential reading for the battle-ready. "Threats to brand relevance are always lurking around the corner. Your brand is virtually never immune from the risk of fading instead of being energized or being damaged instead of strengthened."—David Aaker From branding guru David Aaker comes *Three Threats to Brand Relevance*, a provocative new offering in the Jossey-Bass Short Format series. In *Three Threats* Aaker reveals that the key to an organization's sustained growth is to learn what it takes to bring "big" innovation to market and create barriers to competitors. Aaker also shows how well-established companies can avoid becoming irrelevant in the face of the continuing parade of marketing dynamics led by others. Building on his full-length book *Brand Relevance*, Aaker offers a guide for confronting the three threats if they emerge and shows how to put in place the strategies that will keep the threats at bay. Threat #1: A decline in category or subcategory relevance. Customers simply no longer want to buy what you are making, despite the fact you are offering a quality product and some customers love it. Threat #2: The loss of energy relevance. Without energy the brand simply does not come to mind as other more visible brands and a decline in energy can create a perception that it is locked in the past, suitable for an older generation. Threat #3: The emergence of a "reason-not-to-buy." The brand may have a perceived quality problem or be associated with a firm policy that is not acceptable. Whether your brand is just breaking into the marketplace or has a long held place in the hearts of its consumers, any forward-thinking company can implement Aaker's proven methods and strategies as part of their organization's ongoing review of brand strategy with the help of this succinct and to-the-point resource. About the Jossey-Bass Short Format Series Written by thought leaders and experts in their fields, pieces in the Jossey-Bass Short Format Series provide busy, on-the-go professionals, managers and leaders around the world with must-have, just-in-time information in a concise and actionable format. "Addressing the issues that managers in the multimedia industry have confronted while developing and implementing this innovative technology, this book focuses on the latest research and findings in digital television technologies. Covered are the major issues surrounding digital convergence including the digital metamarket and new digital media devices and their potential for IT convergence at the macro level. Also addressed are multimedia and interactive digital television and the economic implications of these technologies. Additionally, the managerial implications of interactive digital television are covered, including branding strategies for digital television channels and the critical role of content media management."
