Beginners USA Education map of the world for grades K-3. National Geographic's graded-series of maps are the first to address the unique needs of K-12 students as they advance their understanding of our World. Unlike other classroom poster maps, the world maps use the Winkel-Triple projection, which provides the best combination of size, shape, and distance giving the student the best visual representation of the Earth's surface in two dimensions. This solves the effect seen on other maps where Greenland appears larger than South America. Our Beginner Series, grades K-3, contains an easy to read maps of the World and United States."Map Scale = 1:30,000,000 Sheet Size = 51" x 40"

When middle school mishaps happen, five friends form the S.M.A.R.T. Squad and use their collective skills and the power of science to bring order to their school. Science reigns supreme with this squad of young brainiacs. Join Izzy Newton and her friends in the first adventure of this fun new middle-grade fiction series from National Geographic Kids. A crowded new school and a crazy class schedule is enough to make Izzy feel

dizzy. It may be the first day of middle school, but as long as her best friends Allie Einstein and Charlie Darwin are by her side, Izzy knows it'll all be okay. However, first-day jitters take an icy turn when Izzy's old pal Marie Curie comes back to town. Instead of a warm welcome, Marie gives her former pal the cold shoulder. The problems pile up when the school's air-conditioning goes on the fritz and the temperature suddenly drops to near freezing. The adults don't seem to have a clue how to thaw out the school. Cold temperatures and a frigid friendship? Izzy has had enough of feeling like an absolute zero. She rallies the girls to use their brainpower and science smarts to tackle the school's chilly mystery ... and hopefully to fix a certain frozen friendship along the way. Will the girls succeed and become the heroes of Atom Middle School?

Get ready to be dazzled! This lively reference book for the younger set introduces a fascinating variety of Earth's rocks, minerals, gemstones, fossils, and shells--from granite to gold, marble to malachite, and conchs to clams. Discover how rocks are formed, the three kinds of rocks, and the difference between rocks and minerals. Learn how rocks and minerals are used in art, architecture, industry, and science. Then journey to the oceans to explore seashells and the amazing animals that once inhabited them. Packed with more than 200 stunning photos, including closeups of each specimen, this colorful book showcases breathtaking natural sites such as the Giant's Causeway and human-built structures such as the Great Wall of China. Filled with fun facts and designed for interactive learning, the Little Kids First Big Book of Rocks, Minerals, and Shells is sure to become a favorite with young rock and shell collectors and their parents!

Roar, ribbit, squeak, snore! Children will love imitating the noises made by creatures in the wild, from lions to dolphins to frogs and more. Illustrated with charming photographs, these sturdy pages showcase wild animals and the sounds they make with supersimple facts and lively, age-appropriate language to keep babies and toddlers--and their grown-ups--fascinated by every colorful page. Designed to be the stepping-stone to the best-selling National Geographic Little Kids First Big Book series, the Little Kids First Board Book series takes similar subjects and distills them down to the simplest nonfiction concepts for the youngest audience. Not only will readers learn the sounds wild animals make, they can also find recurring shapes and patterns in the art, while adults can keep their eyes open for occasional funny commentary from the animals. Sidebar text offers additional learning for older siblings or those ready for more complex information. With their square shape, bright and playful design, awesome photography, clear text, and cues to encourage interactive learning, the Little Kids First Board Books mirror the beloved First Big Books while taking a fresh new approach to excite a baby's sense of wonder and make learning about nature and science fun.

Provides information about the United States, including state flags, birds, flowers, and capitals, as well as key points about the water, people, and physical features of each state.
