

Nepali Vyakaran For Class 10

They had entertained a good deal during the winter; much of the time had also been passed in New Orleans in various forms of mild dissipation. She was looking forward to a period of unbroken rest, now, and undisturbed tete-a-tete with her husband, when he informed her that Gouvernail was coming up to stay a week or two. This was a man she had heard much of but never seen. He had been her husband's college friend; was now a journalist, and in no sense a society man or "a man about town," which were, perhaps, some of the reasons she had never met him. But she had unconsciously formed an image of him in her mind. She pictured him tall, slim, cynical; with eye-glasses, and his hands in his pockets; and she did not like him. Gouvernail was slim enough, but he wasn't very tall nor very cynical; neither did he wear eyeglasses nor carry his hands in his pockets. And she rather liked him when he first presented himself. But why she liked him she could not explain satisfactorily to herself when she partly attempted to do so. She could discover in him none of those brilliant and promising traits which Gaston, her husband, had often assured her that he possessed. On the contrary, he sat rather mute and receptive before her chatty eagerness to make him feel at home and in face of Gaston's frank and wordy hospitality. His manner was as courteous toward her as the most exacting woman could require; but he made no direct appeal to her approval or even esteem.

Samrat Upadhyay's new collection vibrates at the edges of intersecting cultures. Journalists in Kathmandu are targeted by the government. A Nepali man studying in America drops out of school and finds himself a part of the unrest in Ferguson, Missouri. A white American woman moves to Nepal and changes her name. A Nepali man falls in love with a mysterious foreign black woman. A rich kid is caught up in his own fantasies of poverty and bank robbery. In the title story, a powerful woman, the owner of a construction company, becomes a political prisoner, and in stark and unflinching prose we see both her world and her mind radically remade. Through the course of the stories in this collection, Upadhyay builds new modes of seeing our interconnected contemporary world. A collection of formal inventiveness, heartbreak and hope, it reaffirms Upadhyay's position as one of our most important chroniclers of globalization and exile.

This book analyses how a language became the instrument with which the contours of a new nation were traced. Mapping the success of formalized Hindi in creating a regional public sphere in north India in the early twentieth century, the book explores the way many educated Indians, influenced by the British ideas and institutions, expressed interest in new concepts such as progress, unity, and a common cultural heritage. From the development of new codes and institutions to a language that helped to create space for argument and debate, the book gives an overview of the Hindi public sphere. Furthermore, it throws light on the work of Vasudha Dalmia about the nascent Hindi public sphere and brings to light how early-twentieth-century discourses on language, literature, gender, history, and politics form the core of the Hindi culture that exists today.
