The theme of the conference this year was Critical CALL, drawing inspiration from the work carried out in the broader field of Critical Applied Linguistics. The term 'critical' has many possible interpretations, and as Pennycook (2001) outlines, has many concerns. It was from these that we decided on the conference theme, in particular the notion that we should question the assumptions that lie at the basis of our praxis, ideas that have become 'naturalized' and are not called into question. Over 200 presentations were delivered in 68 different sessions, both in English and Italian, on topics related specifically to the theme and also more general CALL topics. 94 of these were submitted as extended papers and appear in this volume of proceedings.

The Latin course is written entirely in Latin. It consists of two parts: I: Familia Romana -- the fundamental or elementary course. II: Roma Aeterna -- the advanced course, with Indices covering both parts. The direct method is based on the inductive principle of learning. In the text every sentence is intelligible per se, or self-explanatory, because the meaning and function of all new words and grammatical forms are made clear by the context in which they occur, or if necessary, by illustrations or marginal notes using vocabulary already learned. This demands a carefully graded text, but in order to make learning efficient the content should stimulate interest and curiosity and make it easy for the reader to visualise the scenes and situations described. To meet these demands the chapters of Lingva Latina I form a continuous narrative, a sort of Latin novel, which captivates the students so that they look forward to reading the continuation of the story. While reading this story and learning facts about the Roman life and traditions, the students pick up the vocabulary and grammar that will enable them to go on, in Part II, to read a representative selection of Latin literature, both prose and poetry. Here, too, all new words and structures, if not immediately intelligible from the context, are explained by marginal notes or illustrations. In addition, factual information is given in the margin. Part I covers the essentials of Latin grammar and introduces a basic vocabulary of some 1600 words. The 35 chapters form a sequence of scenes and incidents from the life of a Roman family in the second century A.D. Each chapter is divided into 3 or 4 lessons (lectiones) and consists of several text pages followed by a section on grammar, three exercises, and a list of new words. At the end of the volume there is a survey of inflexions, a Roman calendar, and alphabetical word-list and a grammatical index.

Nel testo l'autore intende far capire che l'italiano è una lingua di una nazione viva, il cui fine non è solo la conoscenza della grammatica, ma della cultura e anche un approccio, seppur essenziale, legato alla riflessione letteraria. L'italiano è lingua della comunicazione e nel contempo è espressione di una cultura aulica, L'italiano di oggi, dopo aver abbandonato la rigidità di una lingua scritta di grande cultura, sta prestando un'attenzione sempre più sensibile alle modalità orali e alle possibilità espressive individuali. Si tratta, pertanto, di una lingua più duttile e ricca che spesso utilizza neologismi, espressioni regionali o costruzioni particolari, in ogni caso tutti elementi portatori di vivaci valori semantici e affettivi. Il fine e l'obiettivo dei docenti di italiano è quello di preparare i discenti ad apprezzare l'italiano come lingua di comunicazione, come idioma da utilizzare nel mondo del lavoro e magari anche per un'eventuale carriera accademica. In ultimo è bene chiarire anche che ciò che si apprende deve essere funzionale alla capacità di comunicare, cioè di interagire con altri parlanti, esprimendo e comprendendo i diversi fini per cui si parla o si scrive. Infatti, un enunciato o un testo scritto non è ancora comunicazione, ma lo diventa solo nel momento in cui arriva all'interlocutore o al lettore o all'ascoltatore. Ammiratore e fan del premio Nobel italiano per la chimica Rita Levi Montalcini, anche il Prof. Lodes ha scelto lo studio, la ricerca e la propria professionalizzazione come fine della propria vita. I migliori amici per il Prof. Lodes, oltre ad alcune amiche e amici in carne e ossa, sono i libri, migliori amici dell'uomo e soprattutto fedeli e mai traditori, sempre pronti ad ascoltare e stupire in qualsiasi momento della vita noi lettori.

It is the middle of the roaring twenties, and Gittel is living The Hague with her parents, whose blazing rows are the traditional preserve of Sundays and public holidays. What luck, then, that Gittel is Jewish, and must submit to "the double helping of public holidays that is the lot of Jewish families". After every matrimonial slanging match, Gittel's mother runs off to her parents' home in Antwerp - with her daughter in tow. Much to her delight, Gittel makes the acquaintance of the well-to-do Mardell family, who allow her to practise on their Steinway. Gittel feels that she is taken seriously by Mr Mardell, the head of the household, and by thirty-year-old Lucie, whom she adores. When these friendships turn out to be nothing but an illusion, Gittel learns her first lessons about trust and betrayal. Her second comes soon after, when her father, whose talents for business leave much to be desired, attempts to make a quick killing in Berlin on the eve of the Wall Street Crash. Though this intimate portrayal of familial strife is set in the shadow of the Holocaust, Simons says little

about the horror that awaits her characters, yet she succeeds in giving the reader the sense that the novel is about more than a young girl's loss of innocence. In a fluid, almost casual style, she has written a masterly and timeless ode to a relatively carefree interlude in a dark and dramatic period. Translated from the Dutch by Liz Waters

Il volume raccoglie il frutto di un lavoro condotto presso il Centro Linguistico di Ateneo dell'Università Roma Tre dal marzo 2015, all'interno di un gruppo di ricerca sul Task-based Language Teaching. Si tratta di un percorso di ricerca-azione nel quale i membri del gruppo – docenti di lingua, ricercatori, studenti universitari – hanno esplorato questa prospettiva di insegnamento sia nei suoi principi teorici sia nelle sue applicazioni pratiche. Nei sei contributi che compongono il volume si cerca di proporre una visione critica e non prescrittiva, fermo restando che il nostro punto di riferimento essenziale – il task appunto – ha caratteristiche imprescindibili per essere definito tale nell'ambito dell'attività didattica. Il volume si rivolge prevalentemente a studenti universitari di discipline linguistiche e a insegnanti in servizio e in formazione.

Do you know what the hardest thing for an Italian learner is? Finding PROPER reading material that they can handle...which is precisely the reason we've written this book! Teachers love giving out tough, expert-level literature to their students, books that present many new problems to the reader and force them to search for words in a dictionary every five minutes -- it's not entertaining, useful or motivating for the student at all, and many soon give up on learning at all! In this book we have compiled 20 easy-to-read, compelling and fun stories that will allow you to expand your vocabulary and give you the tools to improve your grasp of the wonderful Italian tongue. How Italian Short Stories for Beginners works: Each story will involve an important lesson of the tools in the Italian language (Verbs, Adjectives, Past Tense, Giving Directions, and more), involving an interesting and entertaining story with realistic dialogues and day-to-day situations. The summaries follow a synopsis in Italian and in English of what you just read, both to review the lesson and for you to see if you understood what the tale was about. At the end of those summaries, you'll be provided with a list of the most relevant vocabulary involved in the lesson, as well as slang and sayings that you may not have understood at first glance! Finally, you'll be provided with a set of tricky questions in Italian, providing you with the chance to prove that you learned something in the story. Don't worry if you don't know the answer to any -- we will provide them immediately after, but no cheating! So look no further! The sustainability of Networked Collaborative Learning (NCL) is a key topic of discussion amongst the institutions where it has been or may potentially be introduced. In order to determine the extent of NCL's sustainability, the added value university education may yield by adopting collaborative learning strategies must be quantified. In turn, an understanding of the implications NCL produces in terms of design and management is gained. After comparing NCL with other Technology Enhanced Learning (TEL) approaches and discussing the possible reasons for adopting it, a multidimensional model for the sustainability of NCL is proposed. The model is characterized by four dimensions: pedagogical approaches, e-teacher professional development, instructional design models and valuation/assessment approaches. Each of these dimensions is examined on the basis of the author's direct experience gained through applying NCL to his university teaching. Delineates a framework for NCL sustainability Provides an instructional design model for NC Describes an original approach to the evaluation of collaborative learning processes

Il titolo di questo volume rimanda a una realtà presente, spesso drammaticamente, in tutti i territori in cui le culture slave, in diverse fasi storiche, si sono trovate a vivere a contatto con altre etnie. Al di là dei problemi di convivenza, complicati oggi da fenomeni quali globalizzazione e multiculturalismo che dissimulano i conflitti identitari, la storia degli slavi si è sempre intrecciata a quella di altri popoli. È sembrato opportuno dunque proporre il tema, non inedito, dei 'confini', che offre ampio spazio di riflessione su una molteplicità di aspetti delle culture slave. Ancora oggi dall'Italia si guarda ai paesi dell'Europa centro-orientale con un certo scetticismo. Le lingue e le tradizioni di quest'area restano poco o niente affatto note. I flussi migratori dei popoli di questi ultimi vent'anni hanno contribuito a creare l'immagine di un'Europa di secondaria importanza, arretrata, che vuole imporsi alla prima. Questo volume collettivo vuole invece mostrare come la nostra identità di europei si riesca a mettere a fuoco, e con difficoltà, solo allargando lo sguardo ad est e imparando la lezione dei territori dell'Europa centro-orientale. Anche se gli slavi occidentali e parte degli slavi meridionali hanno partecipato alla storia occidentale sin dal medioevo e ne sono stati poi divisi dagli eventi storici, si potrà forse forgiare una nuova identità europea solo riflettendo sulle vicende dell'intero mondo slavo, e sperimentando le stesse difficoltà di convivenza (quale è ora anche l'esperienza dell'Europa occidentale) fra residenti e immigrati, culture maggioritarie e minoritarie, identità e alterità.

Ernesto Macaro brings together a wealth of research on the rapidly expanding phenomenon of English Medium

Instruction. Against a backdrop of theory, policy documents, and examples of practice, he weaves together research in both secondary and tertiary education, with a particular focus on the key stakeholders involved in EMI: the teachers and the students. Whilst acknowledging that the momentum of EMI is unlikely to be diminished, and identifying its potential benefits, the author raises questions about the ways it has been introduced and developed, and explores how we can arrive at a true cost–benefit analysis of its future impact. “This state-of-the-art monograph presents a wide-ranging, multi-perspectival yet coherent overview of research, policy, and practice of English Medium Instruction around the globe. It gives a thorough, in-depth, and thought-provoking treatment of an educational phenomenon that is spreading on an unprecedented scale.” Guangwei Hu, National Institute of Education, Singapore Additional online resources are available at www.oup.com/elt/teacher/emi Ernesto Macaro is Professor of Applied Linguistics at the University of Oxford and is the founding Director of the Centre for Research and Development on English Medium Instruction at the university. Mobile Learning: The Next Generation documents the most innovative projects in context-aware mobile learning in order to develop a richer theoretical understanding of learning in modern mobile-connected societies. Context-aware mobile learning takes advantage of cell phone, mobile, and pervasive personal technologies to design learning experiences that exploit the richness of both indoor and outdoor environments. These technologies detect a learner’s presence in a particular place, the learner’s history in that place or in relation to other people and objects nearby, and adapt learning experiences accordingly, enabling and encouraging learners to use personal and social technologies to capture aspects of the environment as learning resources, and to share their reactions to them.
