Herb Johnson believes that we are meant to live abundantly. We are designed to live the good life, with the freedom and creativity to follow our passions. What will defeat us is an attitude of impoverishment—the belief that we are undeserving, so why should we try. In *Engineering Business Success*, Johnson explores the structure of success. Many books overflow with detail about business systems—important, yes, but they don't reveal the big picture of what it takes to succeed. What fundamentally must be in place to open and effectively operate a successful business? As an engineer and as a businessperson, Johnson has written an important resource for both. But his book is for anyone who wants to make something of himself or herself, because the themes here are central to winning. Business opportunities abound in our society, and Johnson shows you what you should be looking for, and what needs to be in place if you are to win. So many businesses fail right out of the gate, and Johnson has the antidote so that it won't happen to you. Foremost, he says, you need to seize the responsibility to serve—to serve your industry, your clients, and your stakeholders. That is the underpinning of success. In *Engineering Business Success*, Herb Johnson shares what he has learned in his 28 years at the helm of the thriving company that he founded. And he shares what he has learned in life, since his boyhood rural upbringing, through his years as a young engineer, and as he has worked to make the most of his business. Johnson's story demonstrates the trajectory of following one's passion—and doing so with the spirit of service and with the business savvy that he has learned along the way. "Herb embraces an attitude of abundance, a dedication to discipline, and commitment for lifetime learning, all of which pour forth from this

story of his entrepreneurial journey. Business owners, and those wishing to experience the freedoms Herb has enjoyed, will get a dose of enthusiasm and pick up some helpful hints from reading this book.” —VERNE HARNISH, FOUNDER, ENTREPRENEURS’ ORGANIZATION AND GAZELLES AUTHOR OF SCALING UP AND MASTERING THE ROCKEFELLER HABITS

“A riveting memoir that takes readers on a roller coaster ride from the depths of hell to triumphant success.”—Dave Pelzer, author of *A Child Called “It”* Michelle Stevens has a photo of the exact moment her childhood was stolen from her: She’s only eight years old, posing for her mother’s boyfriend, Gary Lundquist—an elementary school teacher, neighborhood stalwart, and brutal pedophile. Later that night, Gary locks Michelle in a cage, tortures her repeatedly, and uses her to quench his voracious and deviant sexual whims. Little does she know that this will become her new reality for the next six years. Michelle can also pinpoint the moment she reconstituted the splintered pieces of her life: She’s in cap and gown, receiving her PhD in psychology—and the university’s award for best dissertation. The distance between these two points is the improbable journey from torture, loss, and mental illness to healing, recovery, and triumph that is Michelle’s powerful memoir, *Scared Selfless*. Michelle suffered from post-traumatic stress disorder, anxiety, and depression, and made multiple suicide attempts. She also developed multiple personalities. There was “Chelsey,” the rebellious teenager; “Viscous,” a tween with homicidal rage; and “Sarah,” a sweet little girl who brought her teddy bear on a first date. In this harrowing tale, Michelle, who was inspired to help others heal by becoming a psychotherapist, sheds light on the all-too-real threat of child sexual abuse, its subsequent psychological effects, and the best methods for victims to overcome their ordeals

and, ultimately, thrive. *Scared Selfless* is both an examination of the extraordinary feats of the mind that are possible in the face of horrific trauma as well as Michelle's courageous testament to their power.

Five years in the writing by one of science fiction's most honored authors, *Doomsday Book* is a storytelling triumph. Connie Willis draws upon her understanding of the universalities of human nature to explore the ageless issues of evil, suffering and the indomitable will of the human spirit. For Kivrin, preparing an on-site study of one of the deadliest eras in humanity's history was as simple as receiving inoculations against the diseases of the fourteenth century and inventing an alibi for a woman traveling alone. For her instructors in the twenty-first century, it meant painstaking calculations and careful monitoring of the rendezvous location where Kivrin would be received. But a crisis strangely linking past and future strands Kivrin in a bygone age as her fellows try desperately to rescue her. In a time of superstition and fear, Kivrin—barely of age herself—finds she has become an unlikely angel of hope during one of history's darkest hours. Praise for *Doomsday Book* “A stunning novel that encompasses both suffering and hope. . . . The best work yet from one of science fiction's best writers.”—*The Denver Post* “Splendid work—brutal, gripping and genuinely harrowing, the product of diligent research, fine writing and well-honed instincts, that should appeal far beyond the normal science-fiction

constituency.”—Kirkus Reviews (starred review) “The world of 1348 burns in the mind’s eye, and every character alive that year is a fully recognized being. . . . It becomes possible to feel . . . that Connie Willis did, in fact, over the five years Domsday Book took her to write, open a window to another world, and that she saw something there.”—The Washington Post Book World

Reese Witherspoon’s Book Club Pick A lively, sexy, and thought-provoking East-meets-West story about community, friendship, and women’s lives at all ages—a spicy and alluring mix of Together Tea and Calendar Girls. Every woman has a secret life . . . Nikki lives in cosmopolitan West London, where she tends bar at the local pub. The daughter of Indian immigrants, she’s spent most of her twenty-odd years distancing herself from the traditional Sikh community of her childhood, preferring a more independent (that is, Western) life. When her father’s death leaves the family financially strapped, Nikki, a law school dropout, impulsively takes a job teaching a "creative writing" course at the community center in the beating heart of London’s close-knit Punjabi community. Because of a miscommunication, the proper Sikh widows who show up are expecting to learn basic English literacy, not the art of short-story writing. When one of the widows finds a book of sexy stories in English and shares it with the class, Nikki realizes that beneath their white dupattas, her students have a wealth of fantasies and memories. Eager to liberate these modest women, she teaches them how to express their untold stories, unleashing creativity of the most unexpected—and exciting—kind. As more women are drawn to the class, Nikki warns her students to keep their work secret from the Brotherhood, a group of highly conservative young men who have appointed themselves the community’s "moral police." But when the widows’ gossip offers shocking

In 1946, American judge Potter Stewart famously said, 'I can't define pornography, but I know it when I see it.' Over seventy years later, the reverberations of this sentence are still felt across the world. From proposed porn bans to religious morality to women's rights, the assumption is that porn has a single, knowable definition. But if one man's pornography is another woman's erotica is another person's sex tape, what really counts as porn? And who gets to do the counting? In this alternative conversation around digital sexual expression in India, Richa Kaul Padte takes readers on an intimate tour of the sexy internet. From camgirls to fanfiction writers, homemade videos to consent violations, *Cyber Sexy* is an unflinching deep dive into the messy terrain of what it means to seek out pleasure online. The question of whether or not something counts as porn is, ultimately, left up to the reader. After all, you'll know it when you see it, right? Hard-headed evidence on why the returns from investing in girls are so high that no nation or family can afford not to educate their girls. Gene Sperling, author of the seminal 2004 report published by the Council on Foreign Relations, and Rebecca Winthrop, director of the Center

for Universal Education, have written this definitive book on the importance of girls' education. As Malala Yousafzai expresses in her foreword, the idea that any child could be denied an education due to poverty, custom, the law, or terrorist threats is just wrong and unimaginable. More than 1,000 studies have provided evidence that high-quality girls' education around the world leads to wide-ranging returns: Better outcomes in economic areas of growth and incomes Reduced rates of infant and maternal mortality Reduced rates of child marriage Reduced rates of the incidence of HIV/AIDS and malaria Increased agricultural productivity Increased resilience to natural disasters Women's empowerment What Works in Girls' Education is a compelling work for both concerned global citizens, and any academic, expert, nongovernmental organization (NGO) staff member, policymaker, or journalist seeking to dive into the evidence and policies on girls' education.

Four novellas from Stephen King bound together by the changing of seasons, each taking on the theme of a journey with strikingly different tones and characters. This gripping collection begins with "Rita Hayworth and the Shawshank Redemption," in which an unjustly imprisoned convict seeks a strange and startling revenge--the basis for the Best Picture Academy Award-nominee The Shawshank Redemption. Next is "Apt Pupil," the inspiration for the film of the same name about top high school student Todd Bowden and his obsession with the dark and deadly past of an older man in town. In "The Body," four rambunctious young boys plunge through the facade of a small town and come face-to-face with life, death, and intimations of their own mortality. This novella became the movie Stand By Me. Finally, a disgraced woman is determined to triumph over death in "The Breathing Method."--Provided by publisher. Like many twenty-one year olds, Star Wood Leigh works two jobs to make ends meet: the day shift at Talon's Nail and Tan Spa, and the night shift at Mother Pearl's Steak & Oyster Emporium. The archetypal tomboy, at home in jeans and a T-shirt, Star is guileless and beguiling, a fresh-faced beauty who knows that too much of a good thing is wonderful. A loving daughter, a good friend and a faithful girlfriend, this Florida girl gets more than her fair share of sun and fun. And then an innocent evening at a football game sets off a chain of life-altering events. One minute Star is cleaning the tanning beds at Talon's, and the next she's being primed and prodded in preparation for the front cover of a national magazine... Playful, bawdy and curl-your-toes sexy, STAR is an insider's look at a world of inflated egos and inflated bodies. Going far beyond the cliched air-kisses and casting couches of Hollywood, STAR shows what really happens when A-list meets D-cup, when girl becomes goddess.

xxxxx proposes a radical, new space for artistic exploration, with essential contributions from a diverse range of artists, theorists, and scientists. Combining intense background material, code listings, screenshots, new translation, [the] xxxxx [reader] functions as both guide and manifesto for a thought movement which is radically opposed to entropic contemporary economies. xxxxx traces a clear line across eccentric and wide ranging texts under the rubric of life coding which can well be contrasted with the death drive of cynical economy with roots in

rationalism and enlightenment thought. Such philosophy, world as machine, informs its own deadly flipside embedded within language and technology. xxxxx totally unpicks this hiroshimic engraving, offering an dandyish alternative by way of deep examination of software and substance. Life coding is primarily active, subsuming deprecated psychogeography in favour of acute wonderland technology, wary of any assumed transparency. Texts such as Endonomadology, a text from celebrated biochemist and chaos theory pioneer Otto E. Roessler, who features heavily throughout this intense volume, make plain the sadistic nature and active legacy of rationalist thought. At the same time, through the science of endophysics, a physics from the inside elaborated here, a delicate theory of the world as interface is proposed. xxxxx is very much concerned with the joyful elaboration of a new real; software-led propositions which are active and constructive in eviscerating contemporary economic culture. xxxxx embeds Perl Routines to Manipulate London, by way of software artist and Mongrel Graham Harwood, a Universal Dovetailer in the Lisp language from AI researcher Bruno Marchal rewriting the universe as code, and self explanatory Pornographic Coding from plagiarist and author Stewart Home and code art guru Florian Cramer. Software is treated as magical, electromystical, contrasting with the tedious GUI desktop applications and user-led drudgery expressed within a vast ghost-authored literature which merely serves to rehearse again and again the demands of industry and economy. Key texts, which well explain the magic and sheer art of programming for the absolute beginner are published here. Software subjugation is made plain within the very title of media theorist Friedrich Kittler's essay Protected Mode, published in this volume. Media, technology and destruction are further elaborated across this work in texts such as War.pl, Media and Drugs in Pynchon's Second

World War, again from Kittler, and Simon Ford's elegant take on J.G Ballard's crashed cars exhibition of 1970, A Psychopathic Hymn. Software and its expansion stand in obvious relation to language. Attacking transparency means examining the prison cell or virus of language; life coding as William Burrough's cutup. And perhaps the most substantial and thorough-going examination is put forward by daring Vienna actionist Oswald Wiener in his Notes on the Concept of the Bio-adaptor which has been thankfully unearthed here. Equally, Olga Goriunova's extensive examination of a new Russian literary trend, the online male literature of ucaff.com provides both a reexamination of culture and language, and an example of the diversity of xxxxx; a diversity well reflected in background texts ranging across subjects such as Leibniz' monadology, the ur-crash of supreme flaneur Thomas de Quincey and several rewritings of the forensic model of Jack the Ripper thanks to Stewart Home and Martin Howse. xxxxx liberates software from the machinic, and questions the transparency of language, proposing a new world view, a sheer electromysticism which is well explained with reference to the works of Thomas Pynchon in Friedrich Kittler's essay, translated for the first time into English, which closes xxxxx. Further contributors include Hal Abelson, Leif Elggren, Jonathan Kemp, Aymeric Mansoux, and socialfiction.org.

"Jaw-dropping . . . Inspiring . . . A haunting and beautifully composed book . . . It blew my mind." --Lisa Taddeo, #1 New York Times bestselling author of *Three Women* A fearless exposé of the secrets and lies of women's intimate lives, by the bestselling author of *The Perfect Nanny*, *Adèle*, and *In the Country of Others* "All those in positions of authority--politicians, parents, teachers--maintain the same line: 'Do what you like, but do it in private.'" Leila Slimani was in her native Morocco promoting her novel *Adèle*, about a woman addicted to sex, when she began meeting women who confided the dark secrets of their sexual

lives. In Morocco, adultery, abortion, homosexuality, prostitution, and sex outside of marriage are all punishable by law, and women have only two choices: They can be wives or virgins. *Sex and Lies* combines vivid, often harrowing testimonies with Slimani's passionate and intelligent commentary to make a galvanizing case for a sexual revolution in the Arab world. An irreverent assessment of the dark side of parenting combines original essays and anonymous confessions as posted on the ScaryMommy.com site to encourage women to embrace their own parenting approaches without competing with other moms who only seem to have everything under control.

One of the outstanding problems of the biologist, whether he be beginning student or specialists, is that of understanding technical terms. The best way to understand and remember technical terms is to understand first their component parts, or roots. This dictionary has been designed primarily to meet the needs of the beginning student, the medical student, and the taxonomist, but it should be of value to all biologists.

At twelve-year-old Indian American boy believes he is the reincarnation of Krishna and plans to unveil his true identity at the school talent show. Meet Kiran Sharma: lover of music, dance,

and all things sensual; son of immigrants, social outcast, spiritual seeker. A boy who doesn't quite understand his lot—until he realizes he's a god . . . As an only son, Kiran has obligations—to excel in his studies, to honor the deities, to find a nice Indian girl, and, above all, to make his mother and father proud—standard stuff for a boy of his background. If only Kiran had anything in common with the other Indian kids besides the color of his skin. They reject him at every turn, and his cretinous public schoolmates are no better. Cincinnati in the early 1990s isn't exactly a hotbed of cultural diversity, and Kiran's not-so-well-kept secrets don't endear him to any group. Playing with dolls, choosing ballet over basketball, taking the annual talent show way too seriously . . . the very things that make Kiran who he is also make him the star of his own personal freak show . . . Surrounded by examples of upstanding Indian Americans—in his own home, in his temple, at the weekly parties given by his parents' friends—Kiran nevertheless finds it impossible to get the knack of “normalcy.” And then one fateful day, a revelation: perhaps his desires aren't too earthly, but too divine. Perhaps the solution to the mystery of his existence has been before him since birth. For Kiran Sharma, a long, strange trip is about to begin—a journey so sublime, so ridiculous, so painfully beautiful, that it can only lead to the truth . . . Praise for *Blue Boy* “Compassionate, moving, funny, and wise, *Blue Boy* is one of the best debut novels I have read in years.” &mda

Tobacco use kills more people than any other addiction and we know that addiction starts in childhood and youth. We all agree that youths should not smoke, but how can this be accomplished? What prevention messages will they find compelling? What effect does tobacco advertising--more than \$10 million worth every day--have on youths? Can we responsibly and effectively restrict their access to tobacco products? These questions and more are addressed in *Growing Up Tobacco Free*, prepared by the Institute of Medicine to help everyone understand the troubling issues surrounding youths and tobacco use. *Growing Up Tobacco Free* provides a readable explanation of nicotine's effects and the process of addiction, and documents the search for an effective

approach to preventing the use of cigarettes, chewing and spitting tobacco, and snuff by children and youths. It covers the results of recent initiatives to limit young people's access to tobacco and discusses approaches to controls or bans on tobacco sales, price sensitivity among adolescents, and arguments for and against taxation as a prevention strategy for tobacco use. The controversial area of tobacco advertising is thoroughly examined. With clear guidelines for public action, everyone can benefit by reading and acting on the messages in this comprehensive and compelling book.

Essays by Mistress Raven, Richard August and Mistress Delilah.

Counter Saudi Arabia is a wealthy and powerful country which wields influence in the West and across the Islamic world. Yet it remains a closed society. Its history in the twentieth century is dominated by the story of state formation. After the collapse of the Ottoman Empire, Ibn Sa'ud fought a long campaign to bring together a disparate people from across the Arabian peninsula. In 1932 the Kingdom of Saudi Arabia was born. Madawi al-Rasheed traces its extraordinary history from the age of emirates in the nineteenth century, through the 1990 Gulf War, to the present day. She fuses chronology with analysis, personal experience with oral histories, and draws on local and foreign documents to

illuminate the social and cultural life of the Saudis. This is a rich and rewarding book which will be invaluable to students, and to all those trying to understand the enigma of Saudi Arabia.-from publisher description at

China and Pakistan, India's two most powerful neighbours, share an 'all-weather' relationship that is as reputed for its depth as it is layered in secrecy. Based on years of research and interviews, Andrew Small has put together the story of China and Pakistan's growing, and in parts troubled, friendship. The China-Pakistan Axis is essential to understanding the economic, political and security map of Asia, especially India's neighbourhood. It explains Beijing's extraordinary support to Pakistan's nuclear programme and defence planning, their strategic cooperation on India, the United States and Afghanistan, and the implications for counter-terrorism efforts. A special chapter for this Indian edition brings the book up to date on China's involvement in the Taliban talks.

A modern visionary and one of the newest authors of British-Indian heritage, Shaheen Chishti has written a deeply emotional and raw story, poignantly telling the shared experience of three, very different women, who collectively use their voices to improve societal attitudes for their granddaughters. The men around these women, who play prominent roles in their lives, put them into desperate

situations. Young and alone, they fight to overcome their experiences. The result is a masterful original fiction novel, as profound as it is awe-inspiring. "The Granddaughter Project" grips the reader, as the complex past lives of the women are revealed and their connection to one another deepens. Touching upon a vast range of themes, including gender inequality, racial oppression, wartime trauma and female emancipation, "The Granddaughter Project" also examines some of history's greatest tragedies, including The Holocaust which saw the systemic murder of six million European Jews during World War II, the 1958 Notting Hill race riots - a series of racially motivated riots that took place in the United Kingdom from August to September 1958 - as well as the devastating Bengal famine of 1943, which claimed the lives of an estimated three million people due to widespread starvation, malaria and other deadly diseases. Helga is a holocaust survivor, who grew up as the cherub of her family until the Anschluss of Austria. Separated from her family in Auschwitz, she survived the horrors alone and tried to begin a new life in Israel. In complete contrast, Kamla was born as a poor peasant girl and grew up during the Bengali Famine. With an alcoholic father, who abuses her mother, the family find themselves homeless and hungry. She survives and finds work in a women's shelter, eventually marrying Rajeev, who abandons her and their young daughter. Lynette leaves the Caribbean

shores with her mother Pam, arriving in 1950s London. Living in appalling conditions, the pair struggle to make ends meet and contend with constant discrimination. When her mother dies, Lynette is left alone and at the mercy of the people around her. During the Notting Hill riots, she is beaten and left for dead, but she still survives. These warrior women tell their stories for the first time to their granddaughters, hoping that they can succeed where they failed and that they feel empowered, inspired and supported to do what is best for themselves. Shaheen Chishti, author of the "Granddaughter Project", said: "I am deeply humbled to be launching my debut novel, *The Granddaughter Project*. This is a work of love, which I hope will raise awareness of the importance of female empowerment and racial equality. I was fortunate to have been raised with so many inspiring women around me in my life - all of whom have shaped me into the person I am today. And so, I wanted this book to be a tribute to them and women around the world more generally - especially when it is saddening to know that many women are still being oppressed in so many communities around the world. I truly believe that this book demonstrates just how much of a melting pot the world is, but one in which we have more in common than is often assumed."
