Have you ever met someone with the perfect job? To the outside observer, it seems like they've won the career lottery—that by some stroke of luck or circumstance they've found the one thing they love so much that it doesn't even feel like work—and they're getting paid well to do it. In reality, their good fortune has nothing to do with chance. There's a method for finding your perfect job, and Chris Guillebeau, the bestselling author of *The \$100 Startup*, has created a practical guide for how to do it—whether within a traditional company or business, or by striking out on your own. Finding the work you were “born to do” isn't just about discovering your passion. Doing what brings you joy is great, but if you aren't earning a living, it's a hobby, not a career. And those who jump out of bed excited to go to work every morning don't just have jobs that turn their passions into paychecks. They have jobs where they also can lose themselves for hours in the flow of meaningful work. This intersection of joy, money, and flow is what Guillebeau will help you find in this book. Through inspiring stories of those who have successfully landed their dream career, as well as actionable tools, exercises, and thought experiments, he'll guide you through today's vast menu of career options to discover the work perfectly suited to your unique interests, skills, and experiences. You'll learn how to:

- Hack the job of your dreams within a traditional organization by making it work for you
- Find not only your ideal work but also your ideal working conditions
- Create plans that will allow you to take smarter career risks and “beat the house” every time
- Start a profitable “side hustle” and earn extra cash on top of your primary stream of income
- Escape the prison of working for someone else and build a mini-empire as an entrepreneur
- Become a rock star at any creative endeavor by creating a loyal base of fans and followers

Whichever path you choose, this book will show you how to find that one job or career that feels so right, it's like you were born to do it.

'Best quiz book ever' HARRY HILL 'A Quantick quiz is always an unmissable occasion. Funny and fantastical, brilliant, brain-bending and unutterably bonkers. Quantick is the Captain Beefheart of quizzing' MARK BILLINGHAM 'Quantick's Quite Difficult Quiz Book is the antidote to every deathly dull pub quiz you've ever been to. This is how a quiz book should be written - where having fun is the most important outcome' GARY WIGGLESWORTH, author of The Book Lover's Quiz Book Distinctive, unusual, difficult, but spectacularly entertaining, this quiz book is to other pub quizzes what Trivial Pursuit was to Ludo, what The Hitch-Hiker's Guide to the Galaxy is like to the Rhyl phone directory, and what the Rolls-Royce Silver Ghost is like compared to a kid's scooter. Loads better. David Quantick works regularly with Armando Iannucci, including on the new HBO series, Avenue 5. He won an Emmy as part of the writing team on Veep, a BAFTA for Harry Hill's TV Burp and a Writers' Guild Award for The Thick of It. For over fifteen years, David has also hosted his own very popular quizzes at festivals, events, pubs, clubs, cinemas and in tents: the quizzes range is broad and the questions are tricky. They're not about statistics, there's no sport, the picture rounds are conceptual, and there's sometimes a round called 'Martin Amis Character or Blur Song'. Each quiz is funny and entertaining even if you don't know the answers. The quizzes are informative and opinionated. In some ways, they're like stand-up with questions. This is a book based on David's excellent live quizzes. David Quantick is a novelist (All My Colours, Night Train), broadcaster (Radio 2's The Blogger's Guide, Front Row, Loose Ends), music journalist (NME, Q, Uncut) and comedy writer, who hosts quizzes in his spare time. For years, David's quizzes have attracted paying customers who like to be enraged and entertained by quizzes described by many people as 'quite difficult'. But they are quizzes. Quite difficult quizzes that tax the brain and make it go in directions it didn't know it could. That's not to say the questions are fiendishly scientific and packed with questions about dates and the periodic table. They're about books and music, movies and actors, strange events and interesting quotes. You don't leave a Quantick quiz knowing how many times Spurs have won the League, but you may know how many Shirleys have sung a Bond theme or how George V made the front page of The Times. The effectiveness of David's quizzes is down to their unusual variety and almost stream-of-consciousness leaps and bounds of factual imagination. There's not even much point in cheating, because the answers often require mental agility as well as just knowing where Calais is (it's in France, but it wasn't always, even when it was). David's quiz book includes twenty-five main quizzes, four Christmas quizzes and four specialist quizzes, so thirty-three quizzes in total. Entertaining in its own right, this is also a conceptual yet very practical guide to staging excellent quizzes of your own.
