He first describes the tarot meaning of each card in detail and then explains all the other attributions Crowley intended. This unique guide has been updated with a new introduction that provides information on the unicursal hexagram cards included with the deck but never explained. Replaces ISBN 9781578632763

Feeling Exclusion: Religious Conflict, Exile and Emotions in Early Modern Europe investigates the emotional experience of exclusion at the heart of the religious life of persecuted and exiled individuals and communities in early modern Europe. Between the late fifteenth and early eighteenth centuries an unprecedented number of people in Europe were forced to flee their native lands and live in a state of physical or internal exile as a result of religious conflict and upheaval. Drawing on new insights from history of emotions methodologies, Feeling Exclusion explores the complex relationships between communities in exile, the homelands from which they fled or were exiled, and those from whom they sought physical or psychological assistance. It examines the various coping strategies religious refugees developed to deal with their marginalization and exclusion, and investigates the strategies deployed in various media to generate feelings of exclusion through models of social difference, that questioned the loyalty, values, and trust of "others". Accessibly written, divided into three thematic parts, and enhanced by a variety of illustrations, Feeling Exclusion is perfect for students and researchers of early modern emotions and religion.

Settled in 1872 by Spanish pioneers from New Mexico, the town of St. Johns began as a farming and sheep-raising community far removed from the county seat and territorial capital of Prescott. Soon after, the Mormon Church, represented by Bishop David King Udall, purchased 1,200 acres for Mormon colonizers to settle. With the building of the Lyman Dam, the town was finally able to provide adequate water for crops and began to thrive. The building of a power plant in the 1970s doubled the population of St. Johns, but many of the original settlers' descendants are still there as well, canning their gardens' harvest and dusting from their homes the dirt brought in by the wind that never stops blowing. Although the streets are now paved and many of the old buildings and homes have long been razed, St. Johns has a unique story to tell.

False Flag is a complex story of politics and power, yet it's also the story of the remarkable people of Bridgeview, the 'sixteenth' town on Cape Cod. How the people of Bridgeview react to a treasonous plot, imposed on their community by conspirators based in Washington D.C., illustrates the strengths and weaknesses and remarkable resilience of average Americans. At first, the quiet, tourist oriented seaside town is the scene of a near drowning, but when the local police prove more astute than expected, everything changes. As the political mystery unfolds, investigators are led inexorably toward an unexpected and at first hardly believable conclusion: that is, rogue government officials are seeking to create, on U.S. soil, an incident that can be used to justify American military retaliation against another nation. To the conspirators, Bridgeview is perfectly located in a world renowned resort area, and it abuts the Mass. Military Reservation, still called Otis. Known as Edwards Army Base in WWII, when it was the jump-off spot for the War in Europe, and as Otis Air Base, a huge Strategic Air Command facility during the Cold War, it is now home to multiple armed services detachments, as well as 'special op' training facilities. However, while the massive runways and the central facilities remain well maintained, other areas of the 22,000 acre base are nearly forgotten, creating a perfect situation for the conspirators to exploit. False Flag reaches deep into Cape Cod history, but also into the Washington beltway, the Pentagon, and various government agencies. In the process the designs and machinations of a powerful group of NeoCon government conspirators is revealed. This shadow group of high officials and military officers is intent on changing American and global politics and establishing permanent power bases for themselves. The people of Bridgeview thwart their plans.

MIND CONTROL, ELECTRONIC HARRASSMENT, INVASIVE HUMAN EXPERIMENTATION, AND MORE MORE.... In 1953 the United States Government, through the CIA, officially sanctioned the use of invasive MIND CONTROL techniques for both experimentation and interrogation. This program, code named MK ULTRA, ran until the mid 1970's and involved over 149 subprojects, 44 Universities, and 80 private organizations. The MK ULTRA Program was specifically designated to "the research and development of chemical, biological, and radiological materials capable of employment in clandestine operations to control human behavior." In 2003, now legendary, MK researcher and author Ron Patton started a Zine where he exposed these

programs. The Zine, called MKZine, had premiere articles and interviews with researchers, writers and program survivors. It continued to be produced until 2005 when the Zine ceased publication. Now for the first time is the definitive collection of those articles, in their original format.

A laboratory study that investigates how algorithms come into existence. Algorithms--often associated with the terms big data, machine learning, or artificial intelligence--underlie the technologies we use every day, and disputes over the consequences, actual or potential, of new algorithms arise regularly. In this book, Florian Jatón offers a new way to study computerized methods, providing an account of where algorithms come from and how they are constituted, investigating the practical activities by which algorithms are progressively assembled rather than what they may suggest or require once they are assembled.

Showing you how to become irresistible to the opposite sex, Richard La Ruina outlines every necessary element and techniques required in the art to attract, pick-up and make a successful seduction enabling you to shape your own relationships.
