#1 NEW YORK TIMES BEST SELLER • In this urgent, authoritative book, Bill Gates sets out a wide-ranging, practical—and accessible—plan for how the world can get to zero greenhouse gas emissions in time to avoid a climate catastrophe. Bill Gates has spent a decade investigating the causes and effects of climate change. With the help of experts in the fields of physics, chemistry, biology, engineering, political science, and finance, he has focused on what must be done in order to stop the planet's slide to certain environmental disaster. In this book, he not only explains why we need to work toward net-zero emissions of greenhouse gases, but also details what we need to do to achieve this profoundly important goal. He gives us a clear-eyed description of the challenges we face. Drawing on his understanding of innovation and what it takes to get new ideas into the market, he describes the areas in which technology is already helping to reduce emissions, where and how the current technology can be made to function more effectively, where breakthrough technologies are needed, and who is working on these essential innovations. Finally, he lays out a concrete, practical plan for achieving the goal of zero emissions—suggesting not only policies that governments should adopt, but what we as individuals can do to keep our government, our employers, and ourselves accountable in this crucial enterprise. As Bill Gates makes clear, achieving zero emissions will not be simple or easy to do, but if we follow the plan he sets out here, it is a goal firmly within our reach.

The hauntingly prophetic classic novel set in a not-too-distant future where books are burned by a special task force of firemen. 'Another indispensable classic' *The Times* "Ray Bradbury's gift for storytelling reshaped our culture and expanded our world" Barack Obama Guy Montag is a fireman. His job is to burn books, which are forbidden, being the source of all discord and unhappiness. Even so, Montag is unhappy; there is discord in his marriage. Are books hidden in his house? The Mechanical Hound of the Fire Department, armed with a lethal hypodermic, escorted by helicopters, is ready to track down those dissidents who defy society to preserve and read books. The classic dystopian novel of a post-literate future, *Fahrenheit 451* stands alongside Orwell's *1984* and Huxley's *Brave New World* as a prophetic account of Western civilization's enslavement by the media, drugs and conformity. Bradbury's powerful and poetic prose combines with uncanny insight into the potential of technology to create a novel which, decades on from first publication, still has

the power to dazzle and shock.

The Book of the Dead is an ancient Egyptian funerary text, used from the beginning of the New Kingdom (around 1550 BCE) to around 50 BCE. This Reading & Answer Book is for the student of hieroglyphs who wishes to extend their translation skills using real ancient Egyptian texts. The pages contain the hieroglyphic text, phonetic translation, literal and full translations and should be used with the accompanying Student Work Book which contains only the hieroglyphic text and phonetic translation. Most of the text is taken from the Papyrus of Any: The papyrus of Anwy (Any) was found at Thebes and was purchased by the British Museum in 1888. It measures 78 feet by 1 foot 3 inches and is the longest papyrus of the Theban Period. It is made up of 6 individual parts. It contains a number of chapters of the Book of the Dead, mostly accompanied by illustrations. The titles of the chapters in the papyrus are written in red. In the following texts a phonetic (grey) translation of the hieroglyphs is provided to aid word identification in the Student Work Book and in the Reading & Answer Book, an English transliteration and a full literal translation is given for reading and study. This work is taken from the Papyrus of Anwy and other sources to complete the utterances of the Book of the Dead.
